**PRELIMINARY DRAFT CONVENTION ON SUBSTANTIVE RULES  
REGARDING INTERMEDIATED SECURITIES**

*(as adopted by the Committee of Governmental Experts  
at its second session, held in Rome, 06-14 March 2006)*

**Introductory Remarks**  
*by the UNIDROIT Secretariat*

1. - During the second session of the UNIDROIT *Committee of Governmental Experts for the Preparation of a Convention on Substantive Rules regarding Intermediated Securities* (the CGE), the Drafting Committee continued its work under its Chairman Mr Hideki Kanda (Japan), with Mr Guy Morton (United Kingdom) and Mr Michel Deschamps (Canada) acting as Co-Chairmen. Members of the Drafting Committee comprised representatives of the delegations from Belgium, Chile, a “Nordic” country, France, Germany, Luxembourg, Switzerland and the United States of America. The Chairman of the Drafting Committee invited observers from the European Commission, the European Central Bank and the Trading Association for the Emerging Markets to participate in its work.

2. - The task of the Drafting Committee was to review the draft articles of the *Preliminary draft Convention on Harmonised Substantive Rules regarding Intermediated Securities*<sup>1</sup> as approved by the CGE at the occasion of its first session in May 2005<sup>2</sup>. The revision of the text was designed to reflect discussion in the ongoing session of the CGE.

3. - The Drafting Committee held its first meeting on 9 March 2006 and its last meeting on 13 March 2006. On 14 March the text of the preliminary draft Convention<sup>3</sup>, including amendments proposed by the Drafting Committee, was laid before the CGE meeting in plenary. The Chairman of the Drafting Committee stressed that the Drafting Committee had not had enough time to realise all decisions taken by the CGE and to include all necessary changes. Where this was the case, an explanatory footnote had been included.

4. - As regards the proposed changes to the structure of the draft instrument, the Drafting Committee had decided to follow the sequence brought forward in a joint paper of the French and the US Delegations.<sup>4</sup> The Chairman of the Drafting Committee asked the Secretariat to bring the necessary changes to the text.

5. - Following detailed explanation of the proposed amendments by the Chairman of the Drafting Committee the CGE decided to take the amended text as a basis for further discussion.<sup>5</sup>

6. - The preliminary draft instrument was renamed the *Preliminary draft Convention on Substantive Rules regarding Intermediated Securities*.

7. - After the meeting, the UNIDROIT Secretariat reviewed the text from an editorial perspective and changed the structure and the numbering of the preliminary draft Convention following the indications given by the Chairman of the Drafting Committee.

8. - The revised official text is set out in a marked up version (as against UNIDROIT 2005 Study LXXXVIII Doc. 24) in APPENDIX 1 *infra* and in a clean version in APPENDIX 2 *infra*. A table of concordance is included as APPENDIX 3 *infra*.

4. - Without prejudice to any rule of the domestic non-Convention law requiring that no credit or debit be made without a corresponding debit or credit, a debit or credit of securities to a securities account is not ineffective because it is not possible to identify a securities account to which a corresponding credit or debit has been made.

5. - Debits and credits to securities accounts in respect of securities of the same description may be effected on a net basis.

6. - This Article does not preclude any other method provided by the domestic non-Convention law for the acquisition or disposition of intermediated securities, ~~but the priority of an interest created by any such other method is subject to the rules in Article 10.~~

~~76. - The domestic non-Convention law determines:~~

(a) ~~whether and in what circumstances a non-consensual~~ security interest in intermediated securities may arise ~~by operation of law and become effective against third parties;~~ and

(b) ~~the evidential requirements in respect of whether a collateral agreement such an agreement as is referred to in paragraph 1(a) or and~~ the delivery of intermediated securities into the possession or control of a collateral taker ~~is required to be evidenced in writing or in a legally equivalent manner and whether such evidence must permit the identification of intermediated securities so delivered.~~

#### *[Priority among competing security interests]*

1. - This Article determines priority between security interests in the same intermediated securities.

~~\_\_\_\_\_ 2. - Security interests that become effective against third parties arising under Article 5 and Article 56(3):~~

\_\_\_\_\_ (iii) when a control agreement is entered into, or, if applicable, a notice is given to the relevant intermediary.

3. - Where an intermediary enters into a control agreement with a collateral taker or makes a designating entry in favour of a collateral taker, the security interest of the collateral taker has priority over any security interest of the intermediary that is effective against third parties under Article 5(3).

1. - ~~Where securities are credited~~ A person who acquires intermediated securities by credit to a securities account under Article ~~45~~, or who acquires a security interest in such securities by an agreement or designation under Article ~~6~~, and who ~~the~~ the account holder does not at the time of acquisition ~~the credit~~ have knowledge of an adverse claim with respect to the securities ~~—~~

\_\_\_\_\_ (a) the account holder is not subject to ~~that~~ adverse claim;

2. - Paragraph 1 does not apply in respect of an acquisition of securities, other than the grant of a security interest, made~~[, or the creation of a security interest effected,]~~ by way of gift or otherwise gratuitously.

3. - An intermediary who makes a debit, credit, or designating entry to a securities account is not liable to the holder of an adverse claim with respect to intermediated securities unless at the time of such debit, credit or designating entry the intermediary has knowledge of the adverse claim.

43. - For the purposes of this Article a person acts with knowledge of an adverse claim if that person:

(a) has actual knowledge of the adverse claim; or

<sup>2</sup> Further consideration to be given to whether to deal specifically with adverse claims of the intermediary (e.g. by amending the definition of adverse claim).

(b) has knowledge of facts sufficient to indicate that there is a significant probability that the adverse claim exists and deliberately avoids information that would establish the existence of the adverse claim;

and knowledge received by an organisation is effective for a particular transaction from the time when it is or ought reasonably to have been brought to the attention of the individual conducting that transaction.

5. - Notwithstanding Article 8[(2)], if:

(a) securities have been credited to a securities account of an account holder, or have been designated in favour of another person in the manner described in Article 5, in circumstances such that the credit or designating entry is not effective or is liable to be reversed; and

(b) before that credit or designating entry has been [cancelled or] reversed, the securities are credited to a securities account of a third party, or are designated in the manner described in Article 5 in favour of a third party (such a third party being in either case referred to in this sub-paragraph as “the acquirer”), under a further disposition,

the fact that the initial credit or designating entry was made in circumstances such that it is not effective or is liable to be reversed does not make the further credit or designating entry ineffective, in favour of the acquirer, against the person making the further disposition, the relevant intermediary or third parties unless:

(i) the further credit or designating entry is made conditionally and the condition has not been satisfied;

(ii) the acquirer has knowledge, at the time when the further credit or designating entry is made, that it is made as a result of the further disposition and that the further disposition is made in the circumstances referred to in this paragraph; or

(iii) the further disposition is made by way of gift or otherwise gratuitously.]<sup>3</sup>

6. - For the purposes of paragraph 5 the acquirer has knowledge that the further credit or designating entry is made as a result of a purported disposition made in the circumstances referred to in that paragraph if the acquirer has actual knowledge that it is so made, or has knowledge of facts sufficient to indicate that there is a significant probability that it is so made and deliberately avoids information that would establish that that is the case.]

#### *Article 78*

*[Lack of Authorisation, ineffectiveness, timing, conditionality and reversal of debits, credits etc.]*

1. - A debit ~~or credit~~ of securities to a securities account or a designating entry is not effective unless the relevant intermediary is authorised to make that debit, ~~credit~~, or designating entry:

(b) by the domestic non-Convention law.

<sup>3</sup> Further consideration to be given to whether there should be a more general protection against reversal based on reversal etc. of earlier transactions; paragraphs 4 and 5 reproduce Article 7(6) and (7) of Doc.24.

~~2. – Except as otherwise provided by paragraph 4, a debit or credit of securities to a securities account or a designating entry takes effect when it is made.~~

~~3. – The time at which intermediated securities shall be treated as delivered into the possession or control of a collateral taker is as follows:~~

~~(a) in the circumstances specified in Article 6(2)(a), when the relevant securities are credited to a securities account of the collateral taker;~~

~~(b) in the circumstances specified in Article 6(2)(b), when the agreement between the account holder and the relevant intermediary by which the security interest is granted is entered into;~~

~~(c) in the circumstances specified in Article 6(2)(c), (d) or (e), when the relevant condition is fulfilled;~~

~~(d) in the circumstances specified in Article 6(2)(f), when the relevant securities are held or designated in the manner described in the declaration of the relevant Contracting State referred to in Article 6(4)].~~

25. - The domestic non-Convention law and, to the extent permitted by the domestic non-Convention law, an account agreement or the rules and agreements governing the operation of a settlement [or clearing] system, An account agreement, the rules of a clearing or settlement system or the domestic non-Convention law may provide that a debit or credit of securities or a designating entry is not effective or is liable to be reversed. [The domestic non-Convention law determines whether such a debit, credit or designating entry has any effect against third parties during the period before it is reversed and, if so, what that effect is.]

3. – Subject to Article 7, the domestic non-Convention law determines –

(a) where a debit or designating entry is not authorised or a debit, credit or designating entry is otherwise ineffective, the consequences of such ineffectiveness.

~~[2. — The secured obligations may consist of or include any obligation of a financial character, including:~~

2. - Where a collateral taker exercises a right of use, it thereby incurs an obligation to replace the collateral securities originally transferred (the “*original collateral securities*”) by transferring to the collateral provider, not later than the discharge of the secured obligations, securities of the same issuer or debtor, forming part of the same issue or class and of the same nominal amount, currency and description or, where the collateral agreement provides for the transfer of other assets [following the occurrence of any event relating to or affecting any securities provided as collateral], those other assets.

3. - Securities transferred under paragraph 2 before the secured obligations have been fully discharged:

*[Scope of application]*

This Convention applies where rules of private international law of the forum state designate the law of a Contracting State.

*Article 3*  
*[Principles of interpretation]*

1. - In the implementation, interpretation and application of this Convention, regard is to be had to its purposes, to its international character and to the need to promote uniformity and predictability in its application.

2. - Questions concerning matters governed by this Convention which are not expressly settled in the Convention are to be settled in conformity with the general principles on which it is based or, in the absence of such principles, in conformity with the domestic non-Convention law.

## CHAPTER II – TRANSFER OF INTERMEDIATED SECURITIES

*Article 4*  
*[Acquisition and disposition of intermediated securities]*

1. - Intermediated securities are acquired by an account holder by the credit of securities to that account holder's securities account.

2. - No further step is necessary, or may be required by the domestic non-Convention law, to render the acquisition of intermediated securities effective against third parties.

3. - Intermediated securities are disposed of by an account holder by the debit of securities to that account holder's securities account.

4. - Without prejudice to any rule of the domestic non-Convention law requiring that no credit or debit be made without a corresponding debit or credit, a debit or credit of securities to a securities account is not ineffective because it is not possible to identify a securities account to which a corresponding credit or debit has been made.

5. - Debits and credits to securities accounts in respect of securities of the same description may be effected on a net basis.

6. - This Article does not preclude any other method provided by the domestic non-Convention law for the acquisition or disposition of intermediated securities.

*Article 5*  
*[Security interests in intermediated securities]*

1. - An account holder may grant to a collateral taker a security interest in intermediated securities so as to be effective against third parties by:

- (a) entering into a collateral agreement with the collateral taker; and

- (b) delivering the intermediated securities to the collateral taker;

and no further step is necessary, or may be required by the domestic non-Convention law.

2. - Intermediated securities shall be treated as delivered to a collateral taker if they are credited to a securities account of the collateral taker.

3. – Intermediated securities shall also be treated as delivered to a collateral taker –

- (a) if the relevant intermediary is itself the collateral taker and the relevant Contracting State has made a declaration under paragraph 4 in respect of this sub-paragraph;

- (b) if a designating entry has been made and the relevant Contracting State has made a declaration under paragraph 4 in respect of this sub-paragraph; or

- (c) if a control agreement applies and the relevant Contracting State has made a declaration under paragraph 4 in respect of this sub-paragraph.

4. - A Contracting State may declare that under its domestic non-Convention law the condition specified in any one or more of sub-paragraphs (a) to (c) of paragraph 3 is sufficient, to constitute delivery of intermediated securities to a collateral taker.

5. - A Contracting State may declare that under its domestic non-Convention law this Article shall not apply in relation to security interests in intermediated securities granted by or to parties falling within such categories as may be specified in the declaration.

6. - If the domestic non-Convention law so permits, a security interest may be granted –

- (a) in respect of a securities account (and such a security interest extends to all intermediated securities from time to time standing to the credit of the relevant securities account); or,

- (b) in respect of a specified category, quantity, proportion or value of the intermediated securities from time to time standing to the credit of a securities account.

7. - The domestic non-Convention law determines:

- (a) in what circumstances a non-consensual security interest in intermediated securities may arise and become effective against third parties; and

- (b) the evidential requirements in respect of a collateral agreement and the delivery of intermediated securities to a collateral taker.

8. - This Article does not preclude any other method provided by the domestic non-Convention law for the grant of a security interest in intermediated securities, but the priority of a security interest granted by any such other method is subject to the rules in Article 6.

#### *Article 6*

#### *[Priority among competing security interests]*

1. - This Article determines priority between security interests in the same intermediated securities.

2. - Security interests that become effective against third parties under Article 5(3):

- (a) have priority over any security interest that becomes effective against third parties by any method permitted by the domestic non-Convention law other than those provided by Article 5(2) or (3); and

(b) rank among themselves according to the time of occurrence of the following events:

(i) when the collateral agreement is entered into, if the relevant intermediary is itself the collateral taker;

(ii) when a designating entry is made;

(iii) when a control agreement is entered into, or, if applicable, a notice is given to the relevant intermediary.

3. - Where an intermediary enters into a control agreement with a collateral taker or makes a designating entry in favour of a collateral taker, the security interest of the collateral taker has priority over any security interest of the intermediary that is effective against third parties under Article 5(3).

4. - A non-consensual security interest in intermediated securities arising or recognised under any rule of the domestic non-Convention law has such priority as is afforded to it by that law.

5. - Subject to paragraph 2, the priority of any competing security interests in the same intermediated securities is determined by the domestic non-Convention law.

6. - As between persons entitled to any security interests referred to in paragraph 2, paragraph 3 and, to the extent permitted by the domestic non-Convention law, paragraph 4, the priorities provided by the preceding paragraphs may be varied by agreement between those persons, but any such agreement does not affect third parties.

#### *Article 7*

##### *[Acquisition by an innocent person of intermediated securities]*

1. - Where securities are credited to a securities account under Article 4 and the account holder does not at the time of the credit have knowledge of an adverse claim with respect to the securities -

(a) the account holder is not subject to the adverse claim;

(b) the account holder is not liable to the holder of the adverse claim; and

(c) the credit is not ineffective or reversible on the ground that the adverse claim<sup>2</sup> affects any previous debit or credit made to another securities account.

2. - Paragraph 1 does not apply in respect of an acquisition of securities, other than the grant of a security interest, made by way of gift or otherwise gratuitously.

3. - An intermediary who makes a debit, credit, or designating entry to a securities account is not liable to the holder of an adverse claim with respect to intermediated securities unless at the time of such debit, credit or designating entry the intermediary has knowledge of the adverse claim.

4. - For the purposes of this Article a person acts with knowledge of an adverse claim if that person:

---

<sup>2</sup> Further consideration to be given to whether to deal specifically with adverse claims of the intermediary (e.g. by amending the definition of adverse claim).

(a) has actual knowledge of the adverse claim; or

(b) has knowledge of facts sufficient to indicate that there is a significant probability that the adverse claim exists and deliberately avoids information that would establish the existence of the adverse claim;

and knowledge received by an organisation is effective for a particular transaction from the time when it is or ought reasonably to have been brought to the attention of the individual conducting that transaction.

[5. - Notwithstanding Article 8[(2)], if:

(a) securities have been credited to a securities account of an account holder, or have been designated in favour of another person in the manner described in Article 5, in circumstances such that the credit or designating entry is not effective or is liable to be reversed; and

(b) before that credit or designating entry has been [cancelled or] reversed, the securities are credited to a securities account of a third party, or are designated in the manner described in Article 5 in favour of a third party (such a third party being in either case referred to in this sub-paragraph as “*the acquirer*”), under a further disposition,

the fact that the initial credit or designating entry was made in circumstances such that it is not effective or is liable to be reversed does not make the further credit or designating entry ineffective, in favour of the acquirer, against the person making the further disposition, the relevant intermediary or third parties unless:

(i) the further credit or designating entry is made conditionally and the condition has not been satisfied;

(ii) the acquirer has knowledge, at the time when the further credit or designating entry is made, that it is made as a result of the further disposition and that the further disposition is made in the circumstances referred to in this paragraph; or

(iii) the further disposition is made by way of gift or otherwise gratuitously.]<sup>3</sup>

[6. - For the purposes of paragraph 5 the acquirer has knowledge that the further credit or designating entry is made as a result of a purported disposition made in the circumstances referred to in that paragraph if the acquirer has actual knowledge that it is so made, or has knowledge of facts sufficient to indicate that there is a significant probability that it is so made and deliberately avoids information that would establish that that is the case.]

#### *Article 8*

#### *[Lack of authorisation, ineffectiveness and reversal]*

1. - A debit of securities to a securities account or a designating entry is not effective unless the relevant intermediary is authorised to make that debit or designating entry:

(a) by the account holder and, in the case of a debit or designating entry that relates to intermediated securities which are subject to a security interest arising under Article 5(3), by the collateral taker; or

(b) by the domestic non-Convention law.

---

<sup>3</sup> Further consideration to be given to whether there should be a more general protection against reversal based on reversal etc. of earlier transactions; paragraphs 4 and 5 reproduce Article 7(6) and (7) of Doc. 24.

2. - The domestic non-Convention law and, to the extent permitted by the domestic non-Convention law, an account agreement or the rules and agreements governing the operation of a settlement [or clearing] system, may provide that a debit or credit of securities or a designating entry is not effective or is liable to be reversed.

3. – Subject to Article 7, the domestic non-Convention law determines –

(a) where a debit or designating entry is not authorised or a debit, credit or designating entry is otherwise ineffective, the consequences of such ineffectiveness;

(b) where a debit, credit or designating entry is liable to be reversed, its effect (if any) against third parties and the consequences of reversal.

### CHAPTER III – RIGHTS OF THE ACCOUNT HOLDER

#### *Article 9* *[Intermediated securities]*

1. - The credit of securities to a securities account confers on the account holder:

(a) the right to receive and exercise the rights attached to the securities, including in particular dividends, other distributions and voting rights

(i) where the account holder is not an intermediary or is an intermediary acting for its own account; and,

(ii) in any other case, if the domestic non-Convention law so provides;

(b) the right, by instructions to the relevant intermediary, to dispose of the securities in accordance with Articles 4 and 5;

(c) the right, by instructions to the relevant intermediary, to cause the securities to be held otherwise than through a securities account, to the extent permitted under the law under which the securities are constituted, the terms of the securities and the account agreement;

(d) subject to this Convention, such other rights as may be conferred by the domestic non-Convention law.

2. - Unless otherwise provided in this Convention,

(a) the rights referred to in paragraph 1 are effective against third parties;

(b) the rights referred to in paragraph 1(a) may be exercised against the relevant intermediary or the issuer of the securities, or both, in accordance with this Convention, the terms of the securities and the law under which the securities are constituted;

(c) the rights referred to in paragraph 1(b) and 1(c) may be exercised only against the relevant intermediary.

3. - Where securities are credited to a securities account of an account holder in the capacity of collateral taker under Article 5, the domestic non-Convention law determines any limits on the rights described in paragraph 1.

*Article 10*  
*[Measures to enable account*  
*holders to receive and exercise rights]*

1. - An intermediary must take appropriate measures to enable its account holders to receive and exercise the rights specified in Article 9(1), but this obligation does not require the relevant intermediary to take any action that is not within its power or to establish a securities account with another intermediary.

2. - This Article does not affect any right of the account holder against the issuer of the securities.

*Article 11*  
*[Rights of account holders in case of insolvency of intermediary]*

The rights of an account holder under Article 9(1), and a security interest that has become effective against third parties under Article 5(2) or (3), are effective against the insolvency administrator and creditors in any insolvency proceeding in respect of the relevant intermediary.

*Article 12*  
*[Effects of insolvency]*

Subject to Article 22 and Article 26, nothing in this Convention affects:

- (a) any rules of law applicable in insolvency proceedings relating to the avoidance of a transaction as a preference or a transfer in fraud of creditors; or
- (b) any rules of procedure relating to the enforcement of rights to property which is under the control or supervision of an insolvency administrator.

*Article 13*  
*[Position of issuers of securities]*

1. - The law of a Contracting State shall permit the holding through intermediaries of securities that are permitted to be traded on an exchange or regulated market, and the effective exercise of the rights attached to such securities which are so held. This is without prejudice to the terms of issue of the securities.

2. - In particular, the law of a Contracting State shall recognise the holding of securities described in paragraph 1 by a person acting in his own name on behalf of another person (including a nominee) and shall permit such a person to exercise voting or other rights in different ways in respect of different parts of a holding of securities of the same description.

*Article 14*  
*[Set-off]*

1. - As between an account holder who holds intermediated securities for its own account and the issuer of those securities, the fact that the account holder holds the securities with an intermediary shall not of itself, in any insolvency proceeding in respect of the issuer, preclude the existence or prevent the exercise of any rights of set-off which would have existed and been exercisable if the account holder had held the securities otherwise than through an intermediary.

2. - This Article does not affect any express provision of the terms of issue of the securities.

#### **CHAPTER IV – INTEGRITY OF THE INTERMEDIATED HOLDING SYSTEM**

##### *Article 15*

##### *[Prohibition of upper-tier attachment]*

1. - No attachment of or in respect of intermediated securities of an account holder shall be granted or made against the issuer of the relevant securities or against any intermediary other than the relevant intermediary.

2. - In this Article "*attachment*" means any judicial, administrative or other act or process for enforcing or satisfying a judgment, award or other judicial, arbitral, administrative or other decision against or in respect of the account holder or for freezing, restricting or impounding property of the account holder in order to ensure its availability to enforce or satisfy any future such judgment, award or decision.

##### *Article 16*

##### *[Instructions to the intermediary]*

1. - Subject to paragraph 2 [and Article 8(1)], an intermediary is neither bound nor entitled to give effect to any instructions with respect to intermediated securities of an account holder given by any person other than that account holder.

2. - Paragraph 1 is subject to:

(a) the provisions of the account agreement, any other agreement between the intermediary and the account holder or any other agreement entered into by the intermediary with the consent of the account holder;

(b) the rights of any person (including the intermediary) who holds a security interest created under Article 5;

(c) subject to Article 15, any judgment, award, order or decision of a court, tribunal or other judicial or administrative authority of competent jurisdiction;

(d) any mandatory rule of the domestic non-Convention law; and

(e) where the intermediary is [the operator of] a securities settlement [or clearing] system, the rules of that system.

##### *Article 17*

##### *[Requirement to hold sufficient securities]*

1. - An intermediary must, for each description of securities, hold securities and intermediated securities of an aggregate number and amount at least equal to the aggregate

number and amount of securities of that description credited to securities accounts which it maintains [for account holders]<sup>4</sup>.

2. - If at any time an intermediary does not hold sufficient securities and intermediated securities of any description in accordance with paragraph 1, it must [immediately] [promptly] take such action as is required to ensure that it holds sufficient securities and intermediated securities of that description.

3. - The preceding paragraphs do not affect any provision of the domestic non-Convention law, or, subject to the domestic non-Convention law, any provision of the rules of a securities settlement [or clearing] system or of an account agreement, relating to the allocation of the cost of ensuring compliance with the requirements of those paragraphs.

#### *Article 18*

##### *[Application of domestic non-Convention law and account agreement to obligations of intermediary]*

The obligations and duties of an intermediary under this Convention and the extent of the liability of an intermediary are subject to any applicable provision of the domestic non-Convention law and, to the extent permitted by that law, the account agreement.

#### *Article 19*

##### *[Allocation of securities to account holders' rights: securities so allocated not property of the intermediary]*

1. - Securities of each description held by an intermediary or credited to securities accounts held by an intermediary with another intermediary shall be allocated to the rights of the account holders of that intermediary to the extent necessary to ensure that the aggregate number or amount of the securities of that description so allocated is equal to the aggregate number or amount of such securities credited to securities accounts maintained by the intermediary.

2. - Securities allocated under paragraph 1 shall not form part of the property of the intermediary available for distribution among or realisation for the benefit of its unsecured creditors in the event of an insolvency proceeding in respect of the intermediary or be otherwise subject to claims of unsecured creditors of the intermediary.

3. - Subject to paragraph 4, the allocation required by paragraph 1 shall be effected by the domestic non-Convention law and, subject to the domestic non-Convention law, by arrangements made by the relevant intermediary.

4. - A Contracting State may declare that under its domestic non-Convention law the allocation required by paragraph 1 applies only to securities that are held by the relevant intermediary with another intermediary under an arrangement for the segregation of securities held by the relevant intermediary for the benefit of its account holders and does not apply to securities held with another intermediary for the relevant intermediary's own account.

---

<sup>4</sup> The square brackets in paragraph 1 reflect the need to ensure that the Convention does not relax more stringent requirements under a domestic non-Convention law that might, for example, require the intermediary to maintain with another intermediary securities sufficient to reflect securities that the intermediary carries on its books for its own account. Consideration may be given to addressing this issue more generally in the convention.

*Article 20**[Loss sharing in case of insolvency of the intermediary]*

1. - In any insolvency proceeding in respect of an intermediary, if the aggregate number or amount of securities and intermediated securities of any description held by an intermediary is less than the aggregate number or amount of securities of that description credited to securities accounts, the shortfall shall be allocated:

(a) subject to sub-paragraph (b), among the account holders to whose securities accounts securities of the relevant description are credited, in proportion to the respective numbers or amounts of securities so credited; or

(b) where the intermediary is [the operator of] a securities settlement [or clearing] system and the rules or agreements governing the operation of the system make provision for the allocation of the shortfall, in the manner so provided.

2. - [Unless otherwise provided by the domestic non-Convention law,] [I]n any allocation required under paragraph 1(a) no account shall be taken of:

(a) the origin of, or any past dealings in, any securities held by the intermediary or credited to securities accounts held by the intermediary with another intermediary; or

(b) the order in which or time at which any securities are credited or debited to the respective securities accounts of account holders.

3. - The preceding paragraphs are subject to any conflicting rule applicable in the insolvency proceeding of the intermediary.

*Article 21**[Overriding effect of certain rules of securities settlement [or clearing] systems]*

Any provision of the rules or agreements governing the operation of a securities settlement [or clearing] system [which is directed to the stability of the system or the finality of transactions effected through the system] shall, to the extent of any inconsistency, prevail over any provision of [Articles 8,X,Y, ...] [this Convention].

*Article 22**[Effectiveness of debits, credits etc. and instructions on insolvency of operator or participant in securities settlement [or clearing] system]*

1. - Any provision of the rules or agreements governing the operation of a securities settlement [or clearing] system [which is directed to the stability of the system or the finality of transactions] shall have effect notwithstanding the commencement of an insolvency proceeding in respect of [the operator of] the system or any participant in the system in so far as that provision:

(a) precludes the invalidation or reversal of a debit or credit of securities to, or a designating entry in, a securities account which forms part of the system after the time at which that debit, credit or designating entry is treated as final under the rules of the system;

(b) precludes the revocation of any instruction given by a participant in the system for making a disposition of securities, or for making a payment relating to an acquisition or disposition of securities, after the time at which that instruction is treated under the rules of the system as having been entered irrevocably into the system.

2. - Paragraph 1 applies notwithstanding that any invalidation, reversal or revocation referred to in that paragraph would otherwise occur by mandatory operation of the insolvency law of a Contracting State.

## CHAPTER V – SPECIAL PROVISIONS WITH RESPECT TO COLLATERAL TRANSACTIONS<sup>5</sup>

### *Article 23*

#### *[Scope and interpretation in Chapter V]*

1. - This Chapter applies to collateral agreements under which a collateral provider delivers intermediated securities to a collateral taker under Article 5(2) or Article 5(3) in order to secure the performance of any existing or future obligation of the collateral provider or a third person.

2. - In this Chapter –

(a) “*enforcement event*” means, in relation to a collateral agreement, an event on the occurrence of which, under the terms of that collateral agreement, the collateral taker is entitled to enforce its security;

(b) “*collateral securities*” means intermediated securities delivered under a collateral agreement;

(c) “*secured obligations*” means the obligations secured by a collateral agreement.

### *Article 24*

#### *[Enforcement]*

1. - On the occurrence of an enforcement event, the collateral taker may realise the collateral securities:

(a) by selling them and applying the net proceeds of sale in or towards the discharge of the secured obligations;

(b) by appropriating the collateral securities as the collateral taker’s own property and setting off their value against, or applying their value in or towards the discharge of, the secured obligations, provided that the collateral agreement provides for realisation in this manner and specifies the basis on which collateral securities are to be valued for this purpose.

2. - Collateral securities may be realised under paragraph 1:

(a) subject to any contrary provision of the collateral agreement, without any requirement that:

(i) prior notice of the intention to realise shall have been given;

(ii) the terms of the realisation be approved by any court, public officer or other person; or

(iii) the realisation be conducted by public auction or in any other prescribed manner; and

---

<sup>5</sup> Further consideration will be given to the terminology of this Chapter and its consistency with that of the remainder of the preliminary draft Convention.

(b) notwithstanding the commencement or continuation of an insolvency proceeding in respect of the collateral provider or the collateral taker.

3. - A collateral agreement may provide that, if an enforcement event occurs before the secured obligations have been fully discharged, either or both of the following shall occur, or may at the election of the collateral taker occur, whether through the operation of netting or set-off or otherwise:

(a) the respective obligations of the parties are accelerated so as to be immediately due and expressed as an obligation to pay an amount representing their estimated current value or are terminated and replaced by an obligation to pay such an amount;

(b) an account is taken of what is due from each party to the other in respect of such obligations, and a net sum equal to the balance of the account is payable by the party from whom the larger amount is due to the other party.

4. - This Article is without prejudice to any requirement of the domestic non-Convention law to the effect that the realisation or valuation of collateral securities or the calculation of any obligations must be conducted in a commercially reasonable manner.

#### *Article 25*

#### *[Right to use collateral securities]*

1. - If and to the extent that the terms of a collateral agreement so provide (or, where collateral securities are delivered to the collateral taker under Article 5(2), if and to the extent that the terms of the collateral agreement do not provide otherwise), the collateral taker shall have the right to use and dispose of the collateral securities as if it were the owner of them (a "*right of use*").

2. - Where a collateral taker exercises a right of use, it thereby incurs an obligation to replace the collateral securities originally transferred (the "*original collateral securities*") by transferring to the collateral provider, not later than the discharge of the secured obligations, securities of the same issuer or debtor, forming part of the same issue or class and of the same nominal amount, currency and description or, where the collateral agreement provides for the transfer of other assets [following the occurrence of any event relating to or affecting any securities provided as collateral], those other assets.

3. - Securities transferred under paragraph 2 before the secured obligations have been fully discharged:

(a) shall, in the same manner as the original collateral securities, be subject to a security interest under the relevant collateral agreement, which shall be treated as having been created at the same time as the security interest in respect of the original collateral securities was created; and

(b) shall in all other respects be subject to the terms of the relevant collateral agreement.

4. - The exercise of a right of use shall not render invalid or unenforceable any right of the collateral taker under the relevant collateral agreement.

*Article 26*  
*[Top-up or substitution of collateral]*

Where a collateral agreement includes:

(a) an obligation to deliver collateral securities or additional collateral securities in order to take account of changes in the value of the collateral provided under the collateral agreement or in the amount of the secured obligations [, in order to take account of any circumstances giving rise to an increase in the credit risk incurred by the collateral taker] or, to the extent permitted by the applicable law as determined by the private international law rules of the forum, in any other circumstances specified in the collateral agreement; or

(b) a right to withdraw collateral securities or other assets on providing collateral securities or other assets of substantially the same value,

the provision of securities or other assets as described in paragraph (a) and paragraph (b) shall not be treated as invalid, reversed or declared void solely on the basis that they are provided during a prescribed period before, or on the day of but before, the commencement of an insolvency proceeding in respect of the collateral provider, or after the secured obligations have been incurred.

*Article 27*  
*[Declarations in respect of Chapter V]*

1. - A Contracting State may declare that this Chapter shall not apply under its domestic non-Convention law .

2. - A Contracting State may declare that under its domestic non-Convention law this Chapter shall not apply –

(a) in relation to collateral agreements entered into by natural persons or persons falling within such other categories as may be specified in the declaration;

(b) in relation to intermediated securities which are not permitted to be traded on an exchange or regulated market;

(c) in relation to collateral agreements which provide for secured obligations falling within such categories as may be specified in the declaration.
