APPENDIX 1 - TABLE OF DECLARATIONS THAT MAY BE MADE UNDER THE CONVENTION AND LUXEMBOURG PROTOCOL	48

PART I - COMMENTARY

Introduction

- 1. This memorandum has been prepared by the Secretariat of UNIDROIT to assist States and Regional Economic Integration Organisations in their preparation of declarations under the *Convention on International Interests in Mobile Equipment* (the Convention) and the *Luxembourg Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Railway Rolling Stock* (the Luxembourg Protocol).
- 2. The Convention and Luxembourg Protocol provide for the making of declarations by Contracting States and Regional Economic Integration Organisations.¹ The complexity of the system of declarations, and the fact that declarations affect the rights and obligations of Contracting States mean that particular care must be exercised by Contracting States in making their declarations. This Memorandum is intended to ensure that Contracting States make their declarations in full compliance with the terms of the Convention and the Luxembourg Protocol. A table of all of the declarations that may be made by Contracting States and Regional Economic Integration Organisations under the Convention and Luxembourg Protocol is found at **Appendix 1**.

Background

- 3. During the development of the Convention and the Aircraft Protocol,² both of which were adopted at a Diplomatic Conference in Cape Town in November 2001, it became clear that the solutions advocated in some of their provisions might run so counter to the legal traditions of certain States as to make those provisions potentially unacceptable to those States. This could, for example, have been the case with the default provisions permitting the exercise of extra-judicial remedies. However, these provisions were generally seen as crucial to making the benefits of asset-based financing and leasing more widely available under the new international regimen. The solution adopted was to give Contracting States the possibility of making choices in respect of these matters under the Convention and the Aircraft Protocol through a system of declarations. This approach was also adopted during the development of the Luxembourg Protocol, although there are a number of differences between the declarations that Contracting States may make under the Luxembourg Protocol and those that may be made under the Aircraft Protocol.
- 4. The system of declarations provided for under the Convention and the Luxembourg Protocol is an essential element in the decisions to be taken by Contracting States regarding the policy objectives, and in particular the commercial policy objectives, that they see fit to pursue in the matter of the acquisition of railway rolling stock.

Types of declarations

(a) Introduction

5. The declarations provided for under Article 54(2) of the Convention, and Articles 48(2) of the Convention and XXII(2) of the Luxembourg Protocol,³ are mandatory declarations. All other declarations provided for under the Convention and the Luxembourg Protocol are optional in nature.

¹ Except where the context indicates otherwise, references in this Memorandum to Contracting States also includes Regional Economic Integration Organisations.

Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Aircraft Equipment.

The declarations provided for under Article 48(2) of the Convention and Article XXII(2) of the Luxembourg Protocol are addressed to Regional Economic Integration Organisations.

- (b) Mandatory declaration (Contracting States)
- 6. The Convention provides for one mandatory declaration to be made by Contracting States. This is the declaration provided for by Article 54(2) of the Convention as to whether or not remedies can only be exercised with leave of the court. Article 54(2) of the Convention provides that this declaration *must* be made at the time of a Contracting State's ratification, acceptance, approval of, or accession to, the Luxembourg Protocol. For this reason, instruments of ratification, acceptance, approval of, or accession to, the Luxembourg Protocol will not be able to be accepted by the Depositary unless they are accompanied by the mandatory declaration under Article 54(2) of the Convention.
- 7. However, a Contracting State that has previously deposited a declaration under Article 54(2) of the Convention upon its ratification of, or accession to, the Aircraft Protocol is not required to deposit another declaration under Article 54(2) upon its subsequent ratification of, or accession to, the Luxembourg Protocol. ⁴
- (c) Opt-in declarations
- 8. Opt-in declarations are those declarations which must be lodged by a Contracting State in order for a provision of the Convention, as implemented by the Luxembourg Protocol, to have effect in relation to that State. The provisions of the Convention and Luxembourg Protocol in respect of which opt-in declarations may be made are:

· Convention: Article 60; and

Luxembourg Protocol: Articles VI, VIII, IX and X.

- (d) Opt-out declarations
- 9. Opt-out declarations are those declarations which must be lodged by a Contracting State in order for a provision of the Convention *not* to have effect within that State. The provisions of the Convention in respect of which opt-out declarations may be made are:
 - Convention: Articles: 8(1)(b), 13, 43, 50, and 54(1).
- 10. The Luxembourg Protocol does not make provision for any opt-out declarations.
- (e) Declarations relating to a Contracting State's Own Laws
- 11. Certain optional declarations, which relate to a Contracting States own laws, are neither opt-in nor opt-out. These are the declarations which may be made in respect of the following provisions:

• Convention: Articles: 39, 40, and 53; and

Luxembourg Protocol: XIII, XIV, XXIV and XXV.

- (f) Other declarations
- 12. There is one declaration relating to the application of the Convention to territorial units which does not fall within any of the above categories, namely:
 - Convention Article 52.

Article XXIX of the Luxembourg Protocol provides that declarations made under the Convention shall be deemed to have been also made under the Luxembourg Protocol unless stated otherwise.

- (g) Mandatory declarations (Regional Economic Integration Organisations)
- 13. Article 48(2) of the Convention provides for a mandatory declaration to be made by Regional Economic Integration Organisations, at the time of their signature, acceptance, approval or accession, specifying the matters governed by the Convention in respect of which competence has been transferred to that Organisation by its Member States. Article XXII(2) of the Luxembourg Protocol provides for a mandatory declaration to be made by Regional Economic Integration Organisations, at the time of their signature, acceptance, approval or accession, specifying the matters governed by the Luxembourg Protocol in respect of which competence has been transferred to that Organisation by its Member States.

Guide to the use of declaration forms

- (a) Role of Depositary, Supervisory Authority and Registrar
- 14. Under Article 62 of the Convention and Article XXI of the Luxembourg Protocol, instruments of ratification, acceptance, approval or accession are to be deposited with UNIDROIT, as Depositary. Under Article 56(2) of the Convention and Article XXVIII(2) of the Luxembourg Protocol, any declaration or subsequent declaration or any withdrawal of a declaration made under the Convention is to be notified in writing to UNIDROIT, as Depositary.
- 15. Under Article 62 of the Convention and Article XXXIV of the Luxembourg Protocol, Unideot, as Depositary, has the duty *inter alia* of providing the Supervisory Authority and the Registrar (established in accordance with Article 17 of the Convention) with a copy of each instrument of ratification, acceptance, approval or accession and each declaration or withdrawal or amendment of a declaration. Unideotic further has the duty of informing the Supervisory Authority and the Registrar of the date on which each such instrument and each such declaration or withdrawal or amendment of a declaration are deposited, so that the information contained therein may be easily and fully available.⁵
- 16. Under Article 23 of the Convention, the Registrar is required to maintain a list of declarations, withdrawals of declaration and of the categories of non-consensual right or interest communicated to the Registrar by the Depositary as having been declared by Contracting States in conformity with Articles 39 and 40, and the date of each such declaration or withdrawal of a declaration.
- (b) Declaration forms for States: introduction
- 17. Article 56 of the Convention provides that no reservations may be made thereto but that declarations authorised by Articles 39, 40, 50, 52, 53, 54, 55, 57, 58 and 60 may be made in accordance with those provisions. Article XXVIII of the Luxembourg Protocol provides that no reservations may be made thereto but that declarations authorised by Articles XIII, XIV, XXIV, XXVI, XXVII, XXIX and XXX may be made in accordance with those provisions. Declaration forms are provided for all of these declarations, except declarations authorised by Articles 57 and 58 of the Convention and Article XXX of the Luxembourg Protocol.⁶
- (c) Use of the declaration forms
- 18. Contracting States may lodge declarations in any form that complies with the requirements of the Convention and Luxembourg Protocol. However Unidenit, as Depositary, encourages all Contracting

Convention, Article 62(2)(c); Luxembourg Protocol, Article XXIX(2).

⁶ Article 57 of the Convention and Article XXX of the Luxembourg Protocol are concerned with the need for subsequent declarations to be notified to the Depositary, and Article 58 of the Convention is concerned with the need for the withdrawal of declarations to be notified to the Depositary. As these declarations do not modify the substantive rules of the Convention or Luxembourg Protocol they are not dealt with in this memorandum.

States to base their declarations on the declaration forms in this memorandum to ensure that their declarations comply with the requirements of the Convention and Luxembourg Protocol.

- 19. Except for the mandatory declaration provided for under Article 54(2), all the declarations under the Convention and Luxembourg Protocol are optional, and Contracting States are under no obligation to complete any of the forms relating to those declarations.
- (d) Selection of alternative forms
- 20. Contracting States that choose to make one or more of the optional declarations under the Convention and the Luxembourg Protocol should consider that for the declarations in respect of some of the Articles there are *alternative* forms, reflecting the different possibilities permitted under the provisions in question.
- 21. For example, Form No. 1 deals with the case where a State wishes to make a *specific* declaration in relation to Article 39(1)(a) of the Convention (that is, declaring specific categories of non-consensual right or interest). Form No. 2 deals with the case where a State wishes to make a *general* declaration in relation to Article 39(1)(a) of the Convention. It follows that a State wishing to make a declaration in relation to Article 39(1)(a) should select only one of the alternative forms.
- 22. Another example arises in relation to Forms Nos 20 and 21. Form No. 20 deals with the case where a State wishes to make a declaration that it will apply Article VIII of the Luxembourg Protocol only in part. Form No. 21 deals with the case where that State wishes to make a declaration that it will apply Article VIII in its entirety. It follows that a State wishing to make a declaration in relation to Article VIII should select only one of the alternative forms.
- (e) Compatibility of declarations
- 23. Contracting States should ensure that their declarations are compatible with each other. For example, a non-consensual right or interest may be the subject of a declaration in relation to either Article 39 of the Convention (when its effects do not depend on registration) or under Article 40 of the Convention (where registration is required) but not both. Contracting States should therefore ensure that the specific categories of non-consensual right or interest that are included in any declaration that is made in relation to Article 39(1)(a) (Form No. 1 or No. 2) are exclusive of any categories of non-consensual right or interest that are included in any declaration under Article 40 (Form No. 6).
- 24. Another example arises in relation to the declaration that a Contracting State may make in relation to Article 55 of the Convention (not to apply the provisions of Article 13 or Article 43 or both, wholly or in part) (Forms No. 14-17). If a Contracting State were to make a declaration under Article 55 that excluded Article 43 in its entirety but did not exclude Article 13, this would create a gap in the important issue of jurisdiction to grant relief under Article 13.
- 25. In relation to Article IX of the Luxembourg Protocol (Remedies on insolvency), a Contracting State wishing to make a declaration in relation to that Article may opt for Alternative A in its entirety, or Alternative B in its entirety, or Alternative C in its entirety; however, a declaration may not be made covering only a part of one or more of the alternatives. (If a Contracting State does not make a declaration in respect to Article IX of the Luxembourg Protocol, its domestic insolvency law will continue to apply.)
- (f) Declaration forms for Regional Economic Integration Organisations
- 26. Under Article 48(1) of the Convention and Article XXII(1) of the Luxembourg Protocol, Regional Economic Integration Organisations which are constituted by sovereign States and have competence over certain matters governed by the Convention and Luxembourg Protocol may sign, accept, approve or accede to those instruments in the same way as States and, where they do so, under Article 48(3) of the

Convention and Article XXII(3) of the Luxembourg Protocol, all references in the Convention and Luxembourg Protocol to "Contracting State" or "Contracting States" or "State Party" or "State Parties" are to apply equally to such Organisations where the context so requires.

- 27. Under Article 48(2) of the Convention and Article XXII(2) of the Luxembourg Protocol, such a Regional Economic Integration Organisation must lodge declarations with the Depositary at the time of its signature, acceptance, approval or accession, specifying the matters governed by the Convention and Luxembourg Protocol in respect of which competence has been transferred to that Organisation by its member States. Pursuant to the same provision, such an Organisation is also under an obligation to notify the Depositary promptly of any changes to the distribution of competence, including any new transfers of competence, specified in its declaration.
- 28. Thus, once a Regional Economic Integration Organisation has signed, accepted, approved or acceded to the Convention and Luxembourg Protocol and lodged such declarations with the Depositary in accordance with Article 48(1) and (2) of the Convention and Article XXII(1) and (2) of the Luxembourg Protocol, that Organisation in effect takes over the role of its member States for the purposes of the making of the declarations authorised under the Convention and Luxembourg Protocol as regards those matters in respect of which competence has been transferred to it, as specified in its declaration.
- 29. The declarations for which declaration forms are provided in this memorandum concern the declarations that may be made under Article 48(2) of the Convention and Article XXII(2) of the Luxembourg Protocol, both of which declarations are mandatory in nature.
- (g) Language of declarations
- 30. Given that Contracting States' declarations under the Convention and Luxembourg Protocol play an essential part in the operation of the international registration system and given the complexity of the issues involved in these declarations, and in particular the important consequences that will therefore flow from a Contracting State's precise choice of words in the framing of each such declaration, the interest of guaranteeing efficiency in the operation of the international registration system militates strongly in favour of the employment of the minimum number of languages possible in the framing of such declarations. Especial significance therefore attaches to the decision taken by the Unidroit Governing Council at its 81st session (September 2002), and confirmed by resolution of the General Assembly of Unidroit Member States (December 2002) to urge Contracting States to the Convention to ensure that, when they submit declarations under the Convention or a Protocol, that they do so in one or other of Unidroit's working languages, English and French.
- (h) Presentation of declaration forms
- 31. UNIDROIT, as Depositary to the Convention and Luxembourg Protocol, has prepared model forms that Contracting States and Regional Economic Integration Organisations may refer to when drafting their declarations under the Convention and Luxembourg Protocol. These forms are organised as follows:
 - Model Declaration Forms for Use by States Under the Convention (Part II);
 - Model Declaration Forms for Use by States Under the Luxembourg Protocol (Part III);
 - Model Declaration Forms for Use by Regional Economic Integration Organisations under the Convention and Luxembourg Protocol (Part IV).

PART II

A Contracting State should use this form if it wishes to list the specific categories of non-consensual right or interest which under its law have priority over the equivalent of a registered international interest and which are to have priority over a registered international interest, whether in or outside insolvency proceedings. For a general declaration covering all categories of non-consensual right or interest, Form No. 2 should be used.

The categories to be listed by a Contracting State cannot be broader, but may be narrower, than the categories which, under the law of the Contracting State, have priority without registration over an interest equivalent to that of the holder of an international interest.

⁹ These categories may include specific categories to be created by the relevant Contracting State after the deposit of its declaration (cf. Article 39(2)).

A Contracting State that uses this form to list specific categories of non-consensual right or interest must ensure that those specific categories of non-consensual right or interest are exclusive of any categories of non-consensual right or interest that are included in a declaration made under Article 40 (Form No. 6).

Strike out the words "and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)" if the specified categories of non-consensual right or interest will not have priority over an international interest registered prior to the date of the ratification, acceptance, approval (cf. A Contracting State should use this form if it wishes to lodge a general declaration that all categories of non-consensual right or interest which under its law have priority over the equivalent of a registered international interest are to have priority over a registered international interest, whether in or outside insolvency proceedings. For a declaration covering specific categories only, Form No. 1 should be used.

The words "and will in the future have" should be stuck out if the declaration is not intended to extend to categories to be created after the deposit of the declaration pursuant to Article 39(2)).

Strike out the words "and whether registered before or after (name of the State)'s (ratification) (acceptance) (approval) (accession)" if the specified categories of non-consensual right or interest will not have priority over an international interest registered prior to the date of the ratification, acceptance, approval (cf. Article 39(4)). If the words are not struck out, the name of the State and that State's mode of becoming a Contracting State (i.e. by ratification, acceptance, approval or accession) should be specified.

Where entities generally are to be covered, Form No. 4 should be used.

Form No. 4¹⁶ General declaration under Article 39(1)(b)¹⁷

(Name of the State)	declares that nothing in the Convention shall
affect its right or that of any State entity, any i	ntergovernmental Organisation or other private
provider of public services to arrest or detain an	object under its laws for payment of amounts
