UNIDROIT

INTERNATIONAL INSTITUTE FOR THE UNIFICATION OF PRIVATE LAW

ANNUAL REPORT – 2022

Just when we thought that the pandemic and its consequences were slowly fading, new clouds came to darken the horizon. A cruel war hit North-Eastern Europe, and the international economic system, still ailing from the global health-related crisis, was shaken by widespread inflation and additional interferences to the global value chain. As a consequence, the general state of emergency stayed put during all of 2022. Undermined legal certainty, diminished cross-border trade, and even more restricted access to credit have been repercussions of the situation. All these troubles are precisely what transnational law is designed to tackle: what the implementation of our mandate can contribute to appease. Our work has the potential to matter more than ever, and that has been a strong motivation for us all at UNIDROIT.

2022 was another important year for the Cape Town Convention. In the wake of the most intense crisis the aviation sector has ever lived through, the Aircraft Protocol family continued to grow in number, and its effective implementation passed the stress test of widespread litigation with honours. The MAC Protocol, the Convention's youngest, hit two milestones: from an institutional standpoint, a first full draft of the Registry's regulations was completed, and the international bid to select a Registrar successfully executed; regarding implementation, the signature of the European Union was very welcome news. But perhaps this year the spotlight belongs to the Rail Protocol: at our General Assembly, H.E. the Ambassador of the Kingdom of Spain publicly announced the country's ratification, making it possible for the Protocol to start the administrative process leading to its entry into force after 15 years of patient waiting. The rest should be smooth sailing from now on, with other important rail nations nearing completion of their own ratification processes.

Our 1995 Convention continued to give us reason for pride. During 2022, new countries joined the club of nations willing to fight against stolen and illegally trafficked cultural property, amongst which Mexico, one of the world's main sources of artistic and historical heritage. In fact, it was Mexico where UNESCO's Mondiacult, arguably the cultural world's signature event in absolute terms, was successfully celebrated in 2022, concluding with a historic Declaration adopted by 150 States, where UNIDROIT is mentioned twice. The extraordinary work done by Governing Council Member Jorge Sánchez Cordero and our Principal Legal Officer Marina Schneider deserves highlight here.

Concerning implementation of the 2020-2022 Work Programme, this year followed the path of hard work and good progress of the prior twelve months. The projects on the Model Law on Factoring, the Model Law on Warehouse Receipts, and the Principles on Digital Assets and Private Law all made excellent progress and, by the end of 2022, were left one meeting away from completion. The projects on Best Practices on Effective Enforcement, the Legislative Guide on Bank Insolvency, and the Guide on Legal Structures on Agricultural Enterprises each gained enormous momentum and are about to face their final stages before full drafts are ready for consultation. But perhaps the most relevant moment for UNIDROIT's legislative work came with the definition of a new Work Programme for 2023-2025. No doubt proof that the Institute is headed in the right direction, we received a record number of proposals (ten), many of which of enormous interest. Following the sign of the times, several of the projects concerned, one way or another, sustainable development: a project on the private law side of investment contracts, together with the International Chamber of Commerce; the legal nature and private law aspects of voluntary carbon credits; and corporate sustainability due diligence in global value chains, are clear examples of the direction transnational law is headed for, and us with it.

However, there will be plenty of occasions to discuss the new projects in future annual reports. This is the time and place to explain how we have been able to do the enormous amount of work reflected in this document, and why we are so certain we can keep up the speed and quality. Without any budgetary increase, we have been able to incorporate seven additional legal officers into our workforce: two secondees from Hong Kong SAR, two secondees from China's Ministry of Commerce, a long-term secondee from Italy's Ministry of Foreign Affairs and International Cooperation (MAECI); and two academics, one financed by MAECI to do work on agricultural projects, with a focus on Africa, and our annual Sir Roy Goode Scholar. If we add to that the extraordinary effort of the existing tenured staff and our improved technological resources, the result is a job well done—perhaps even over-achievement—but we have the entire Secretariat to thank for that. I certainly thank them, with all my heart. The credit of this Report is again theirs.

We are convinced our work matters, now more than ever. It is our hope that the reader will agree.

The Governing Council took note of the Secretary-General's report on the main features of the legislative and non-legislative work of the Institute during 2021 and expressed its satisfaction with the achievements attained. Further, the Governing Council expressly conveyed its gratitude to the Secretariat for all its hard work in very difficult circumstances and for the transparency employed in the conduct of its activities. The Governing Council also took note of the report of the UNIDROIT Foundation, showed appreciation for its accomplishments, and commended the Foundation's successful fundraising activities.

Following thorough discussion on the many high-quality proposals received, the Governing Council took note of the proposed Work Programme for the triennial period 2023-2025 and comments received, and agreed to recommend the adoption of the Work Programme to the General Assembly with an indication of the level of priority for each project. Six new projects were included in the Work Programme, two of the ongoing projects were granted an extension to develop complementary instruments (i.e., guides to enactment), and five proposals were positively regarded but required additional preparatory and exploratory work before they are included in the new Work Programme. The Governing Council decided to provide the Secretariat with flexibility to propose new inclusions in the Programme within the new period 2023-2025.

Bilateral and multilateral exchanges with Government officials, both with Member and with non-Member States, took place, both in-person and through videoconference. (For the visits linked to a specific project, see the relevant parts below.)

Mongolia: On 2 May 2022, UNIDROIT received a delegation from Mongolia led by the Vice-Minister of Justice and Home Affairs with other representatives of the Ministry, members of Parliament, and the Director of the National Legal Institute of Mongolia. The delegation was welcomed by Secretary-General Ignacio Tirado, Deputy Secretary-General Anna Veneziano, and Principal Legal Officer and Treaty Depositary Marina Schneider. The fruitful meeting focused on Mongolia's consideration of accession to UNIDROIT as a Member State and included presentations covering a number of UNIDROIT instruments. Further opportunities for cooperation between Mongolia and the National Legal Institute of Mongolia and UNIDROIT were also discussed.

Philippines: From 14 to 16 November 2022, a UNIDROIT delegation visited Manila for a series of meetings with Government officials and key domestic stakeholders to discuss possible membership and UNIDROIT instruments and ongoing projects that would be of particular benefit to the Republic of the Philippines. The mission was organised in partnership with Professor Virgilio de los Reyes (Dean of De La Salle University College of Law, UNIDROIT Correspondent, and Working Group Member of the UNIDROIT Legal Structure of Agricultural Enterprises project). The UNIDROIT delegation led by the Secretary-General Ignacio Tirado met with senior officials from the Department of Foreign Affairs of the Republic of the Philippines, including representatives from the Office of Treaties and Legal Affairs, the Office of International Economic Relations, and the Office of European Affairs. It also met with Undersecretary Jose R. Cadiz Jr. from the Department of Justice and with executive members of the Philippine Bar Association. This audience was an opportunity to strengthen ties with the Republic of Niger, which is already a Party to three UNIDROIT instruments. The discussions showed how UNIDROIT's harmonised instruments meet the needs of the Republic of Niger to allow it better access to credit to implement its development projects. The President also recalled that Niger was well advanced in the process of acceding to the 1995 UNIDROIT Convention on Stolen or Illegally Exported Cultural Objects. Finally, the participation of the Republic of Niger in the legislative and non-legislative work of UNIDROIT as a Member State of the

Organisation was discussed.

Coordination agreements with States and State entities

China: On 17 May 2022 Ambassador Extraordinary and Plenipotentiary of the People's Republic of China in the Republic of Italy Li Junhua and UNIDROIT Secretary-General concluded an exchange of notes to further enhance cooperation between the Government of the People's Republic of China and UNIDROIT. Paraguay: On 25 October 2022, during the opening of the XXI International Academy of Comparative Law (IACL) General Congress, a Memorandum of Understanding between UNIDROIT and the Central Bank of Paraguay was signed by UNIDROIT Secretary-General Ignacio Tirado and by the Central Bank of Paraguay's Liana Emilce Caballero Krause, General Manager, and José Cantero Sienna, President. The agreement was aimed to strengthen the relationship between the institutions, promote mutual cooperation and coordinated research exchange, *inter alia*.

Professor Ignacio Tirado delivered the keynote speech for the Workshop, introducing UNIDROIT and its work, and how UNIDROIT instruments reflect international best practices in providing legal certainty and substantially reducing disputes in cross-border trade and investment. The Secretary-General presented several instruments that would be of particular value to ASEAN in the areas of private law and agriculture, access to credit, contracts, and instruments based on new technology.

Professor Anna Veneziano presented during the second session ("International Instruments for Contract Enforcement and ODR") and highlighted the importance of UNIDROIT's international instruments which would facilitate contract enforcement both at the cross-border and at the domestic level in the ASEAN region, with specific reference to the UNIDROIT Principles on International Commercial Contracts, the UNIDROIT/FAO/IFAD Legal Guide on Contract Farming, and the current UNIDROIT project on Best Practices for Effective Enforcement.

1. *Model Law on Factoring*

Working Group Meetings

Fifth session (16-18 May 2022)

Sixth session (28-30 November 2022)

[Model Law on Factoring project website](#)

- *Development of the project*

The development of the Model Law on Factoring (MLF) Project was approved by the UNIDROIT General Assembly at its 78th session in December 2019 as a high priority project for the 2020-2022 Triennial Work Programme. Work commenced on the project in 2020.

As consistent with the Institute's established working methodology, the MLF is being developed by a Working Group composed of international legal experts representing different legal systems. The Working Group is chaired by Governing Council Member Professor Henry Gabriel. A number of international, regional and intergovernmental organisations, industry associations and academics also attend the Working Group sessions as Observers.

- *Working Group*

The fifth session of the Model Law on Factoring Working Group took place from 16 to 18 May 2022 at the seat of UNIDROIT in Rome and via videoconference. The Working Group was attended by 37 participants, comprised of (i) 10 Working Group members; (ii) 17 observers from six international, regional and intergovernmental organisations, four industry associations, and academia; and (iii) 10 members of the UNIDROIT Secretariat.

At the close of the fifth session, the Working Group decided that the draft MLF (consisting of 54 Articles and 25 Registry Clauses) was sufficiently developed to undertake public consultations and referred the draft instrument to the Governing Council for consideration. At its 101st session, the Governing Council approved the draft MLF for the purpose of launching a public consultation on the draft instrument, and mandated the Secretariat to facilitate such consultation.

UNIDROIT conducted a three-month consultation on the draft MLF from July to October 2022. The public consultation included three aspects:

- The launch of a dedicated webpage on the UNIDROIT website allowing interested parties to access the draft Model Law on Factoring and facilitating the submission of comments;
- The circulation of the draft Model Law on Factoring directly to interested parties, including UNIDROIT stakeholders, project stakeholders, and industry stakeholders; and
- The organisation of one or more consultation events to discuss the content of the draft instrument with stakeholders.

Over 30 sets of comments, amounting to over 200 comments total, on the draft MLF were submitted by stakeholders during the consultation window.

From 28 to 30 November 2022, UNIDROIT hosted the sixth session of the Model Law on Factoring Working Group at its seat in Rome, Italy. Thirty-five participants attended the meeting either in-person or via videoconference, including expert Working Group members; representatives from the EBRD, UNCITRAL, the International Chamber of Commerce, and the Kozolchyk National Law Center; private sector stakeholders from FCI, the Secured Finance Network,

World of Open Account, and the APEC Financial Infrastructure Development Network; academic observers; and the UNIDROIT Secretariat.

At its sixth session, the Working Group reviewed the comments on the draft Model Law on Factoring submitted during the consultation period. At the end of its session, the Working Group approved the updated draft Model Law.

It is anticipated that the Model Law on Factoring will be finalised and published in 2023.

- *Presentations, seminars and conferences*

On 23 September 2022, Senior Legal Officer William Brydie-Watson delivered a virtual presentation on the draft UNIDROIT Model Law on Factoring at a conference in Istanbul, Türkiye. Organised by Facilitating Open Account-Receivables Finance (FCI) and the European Bank for Reconstruction and Development (EBRD), the conference discussed recent regional developments regarding factoring in Central, Eastern, and South-East Europe.

On 12 October 2022, UNIDROIT held a virtual Q&A session on the Model Law on Factoring, as part of the public consultation that the Institute undertook. Chaired by Professor Henry Gabriel (UNIDROIT Governing Council Member and Chair of the Model Law on Factoring Working Group), the Q&A session featured presentations by the UNIDROIT Secretariat, the International Finance Corporation, the International Law Institute, as well as comments from FCI, the Secured Finance Network and other private sector experts. Approximately 50 stakeholders from the factoring industry, government, and academia participated in the virtual event.

The draft MLF was also considered at a series of events in 2022 organised by Facilitating Open Account – Receivables Finance (FCI Association) in Africa, Europe, and Latin America.

- *Development of the project*

The project on Best Practices for Effective Enforcement (BPEE) was included in the 2020-2022 Work Programme by the General Assembly at its 78th session in December 2019, confirming the recommendation of the Governing Council at its 98th session in May 2019. At the second meeting of its 99th session in September 2020, the Governing Council approved the proposed guidelines regarding the scope of the project, confirmed the high priority status assigned to it, and authorised the establishment of a Working Group, chaired by Governing Council Member Kathryn Sabo (Deputy Director and General Counsel of the Department of Justice, Canada). Three Working Group sessions, preceded by exploratory work and accompanied by an intense intersessional activity, were held between the end of 2020, when the Working Group started its work, and 2021.

- *Working Group sessions*

From 26 to 28 April 2022, the fourth session of the Working Group on Best Practices for Effective Enforcement met at the seat of UNIDROIT and via videoconference to discuss the outcome of the intense intersessional work undertaken by its members and observers, as well as the Secretariat, since its third session. Following a presentation on the progress of the project and a summary of the numerous intersessional meetings and workshops that had taken place, the Working Group addressed draft best practices regarding enforcement by way of authority, with particular regard to enforceable instruments, registers, duty of disclosure; enforcement on digital assets; issues regarding online auctions; an update on draft best practices regarding enforcement of security rights; and the general outline of the instrument. The session included a presentation by eBRAM (Electronic Business-Related Arbitration and Mediation) on the use of technology in enforcement.

From 12 to 14 December 2022, the fifth session of the Working Group on Best Practices for Effective Enforcement met at the seat of UNIDROIT and via videoconference to discuss the outcome of the intersessional work since the fourth session. The Working Group continued to address draft best practices to render enforcement of creditors' rights more effective, focusing on enforcement by way of authority, extrajudicial enforcement of secured claims and enforcement on digital assets. The session was enriched with a presentation on the use of ADR and ODR in enforcement, provided by a representative of the World Bank Group. - *Development of the project*

Following a 2015 proposal from the Ministry of Justice of Hungary regarding model laws in “business informatics” and 2016 and 2018 proposals from the Ministry of Industry and Trade of the Czech Republic regarding distributed ledger technology and inheritance of digital assets, and upon the Unidroit General Assembly’s approval of broader, medium-priority project in the area of Artificial Intelligence, Smart Contracts and Distributed Ledger Technology at its 78th session in December 2019, the UNIDROIT Governing Council approved the inclusion of the Digital Assets and Private Law Project with high priority in the 2020-2022 Triennial Work Programme at its 99th session in September 2020.

The Digital Assets and Private Law Principles and Legislative Guidance document is being developed by a Working Group composed of international experts selected for their expertise in the fields of property law, secured transactions, and digital technology and the law. The Working Group is chaired by Governing Council Member Professor Hideki Kanda, and a number of international, regional, and intergovernmental organisations, industry associations and academics attend the Working Group sessions as Observers.

- *Working Group*

The fifth session of the Working Group was held in Rome and via videoconference from 7 to 9 March 2022. The meeting was devoted to a discussion of the results of the intersessional work carried out by the Drafting Committee and was attended by 70 participants, including members of the Working Group, various intergovernmental organisations, international development banks, and other invited Observers.

The sixth session of the Working Group took place in Rome and via videoconference from 31 August to 2 September 2022 and was devoted to reviewing an updated draft of the Principles and to examining comments submitted by the Steering Committee. The session was attended by more than 50 participants, including members of the Working Group, various intergovernmental organisations, international development banks, and other invited Observers.

The seventh session of the Working Group took place in Rome and via videoconference from 19 to 22 December 2022. It was decided that the eighth meeting of the Working Group be held 6-8 March 2023 and that the final adoption of the instrument would be slated for the 102nd session of the Governing Council in May 2023.

Apart from the sessions of the Working Group, the Drafting Committee met 12 times over the course of 12 months.

- *Steering Committee*

The Governing Council, at its 99th session, also recommended that the Working Group carry out its work in parallel to a larger Steering Committee comprised of experts from different fields (both technical and legal) and ensuring an appropriate diversity in terms of legal systems, background, and geography. The Steering Committee aims to (i) ensure all sensitivities and domestic realities are considered, (ii) increase transparency, and (iii) provide valuable context-specific feedback to the Working Group. The Steering Committee is chaired by Governing Council Member Monika Pauknerová and was formally established on 31 August 2021.

In 2022, the Steering Committee to the Project on Digital Assets and Private Law was requested to provide feedback on the draft Principles. As part of this process, the Secretariat received responses from 24 experts from 14 countries and one Regional Economic Integration Organisation. This feedback was then incorporated into the Principles, to the extent practicable, by the Drafting Committee and subsequently by the Working Group at its sixth session. The Steering Committee was subsequently asked to conduct a second round of consultations in November 2022.

- *Presentations, seminars, and conferences*

- *Development of the project*

At its 99th session in April/May 2020, the UNIDROIT Governing Council approved the Model Law on Warehouse Receipts (MLWR) project for the 2020-2022 Triennial Work Programme as a high-priority project, followed by UNCITRAL's Commission at its 53rd session in September 2020.

It is envisaged that the Model Law shall consist of a set of black letter rules covering the private law aspects of a warehouse receipt system and that it will be a stand-alone instrument for adoption by States seeking to reform their national legislation. In the current phase, UNIDROIT is leading the joint preparatory work through its Working Group, developing a first comprehensive draft for the Model Law on Warehouse Receipts over the 2020-2022 period. Once completed, the draft Model Law shall be submitted for intergovernmental negotiations through an UNCITRAL Working Group.

The Working Group is chaired by Governing Council Member Eugenia Dacoronia (Professor of Civil Law, University of Athens).

- *Working Group*

The fourth session of the Working Group on the Model Law on Warehouse Receipts took place in hybrid format from 28 February to 2 March 2022. It considered the revised draft text prepared by the Drafting Committee for three chapters of the future Model Law, namely Chapter I "Scope and general provisions"; Chapter II "Issue of a warehouse receipt"; and Chapter III "Transfer of warehouse receipts. Protected holders and other transferees. Warranties. Miscellaneous provisions regarding transfer". The Group also considered drafting options that had been suggested for the Model Law for electronic warehouse receipts (EWRs). More precisely, the purpose of the discussion was to identify which provisions needed to be added or adapted to incorporate EWRs in the draft, based on medium neutrality as the agreed conceptual approach, and to signal their equal importance to paper-based receipts.

The fourth Working Group session was followed by the first in-person meeting of the Drafting Committee (3-4 March 2022). During the meeting, the Committee revised the draft Model Law chapters in accordance with the decisions taken by the Working Group. The Committee focused on revising the draft provisions to ensure that they applied equally to both paper-based and electronic warehouse receipts - in line with technology-neutrality as the conceptual approach for the Model Law agreed upon by the Working Group. New provisions specifically on electronic receipts were added where paper-based and electronic receipts could not be addressed in joint provisions, and where electronic receipts required additional provisions to provide an enabling legal framework for their issuance and transfer. Subsequently, the Committee started preparing drafting suggestions for the remaining three chapters required to complete the Model Law, namely Chapter IV, "Rights and obligations of warehouse operators", which should be limited to the extent required by the instrument itself; Chapter V "Conflict of laws"; and Chapter VI "Implementation of the law", including transitional rules.

The fifth session of the Working Group took place from 5 to 7 December 2022. The Group considered three draft chapters of the future Model Law, as revised by the Drafting Committee, namely Chapter I "Scope and general provisions"; Chapter II "Issuance of a warehouse receipt"; and Chapter III "Transfer of warehouse receipts". Furthermore, the Group considered the drafting suggestions for a new Chapter IV "Rights and obligations of the warehouse operator". The Group

also discussed a note with corresponding drafting suggestions on security rights in warehouse receipts, as well as a note on conflict of laws issues, suggesting certain draft provisions for inclusion in the Model Law. The discussions at this fifth session focused, *inter alia*, on deciding the approach that the draft Model Law should adopt with respect to the accommodation of both the single and the dual format of warehouse receipts in a single text.

The fifth Working Group session was followed by the second in-person meeting of the Drafting Committee (8-9 December 2022). During this meeting, the Committee revised the draft Model Law chapters in accordance with the decisions taken by the Working Group and added three new chapters to the draft: Chapter IV "Non-negotiable warehouse receipts"; Chapter V "Rights and obligations of the warehouse operator"; the optional Chapter VI, "Pledge bond", accommodating the dual receipt format; and Chapter VII "Application of this Law". Following the Drafting Committee's meeting, a first complete draft of the Model Law was circulated to all members and observers of the Working Group to gather written feedback on the draft.

The dates for the sixth Working Group meeting were confirmed for 1 to 3 March 2023, at the end of which the draft Model Law text would be submitted for adoption by the Governing Council at its 102nd session in May 2023.

- *Presentations, seminars and conferences*

On 26 January 2022, the Secretariat organised a Special Workshop on Electronic Warehouse Receipts with a limited number of experts to consider and discuss options and possible limitations in addressing technology-related aspects of the Model Law on Warehouse Receipts. More precisely, it aimed at identifying what provisions the Model Law could propose for it to be an enabling legal framework for electronic warehouse receipts and to ensure that such provisions reflected current practices and were aligned with approaches adopted in other relevant existing and forthcoming international legal instruments, all while fostering future developments, whether in practice, business models, or technology.

On 2 May 2022, Legal Officer Philine Wehling presented the Model Law on Warehouse Receipts to a delegation from Mongolia led by the Vice-Minister of Justice and Home Affairs, with other representatives of the Ministry, Members of Parliament, and the Director of the National Legal Institute of Mongolia.

During the UNIDROIT International Summer School, on 6 July 2022, UNCITRAL Principal Legal Officer and Head of the International Trade Law Division José Angelo Estrella Faria delivered a lecture on the Model Law project to the 26 participants at the seat of UNIDROIT in Rome. The lecture was followed by a lively Q&A session with the participants.

On 21 September 2022, Legal Officer Philine Wehling participated in the Asian Development Bank's (ADB) expert talk on "Innovative Agri-Finance Products to Help Address Food Insecurity in ADB Developing Member Countries" presenting the joint UNCITRAL/UNIDROIT Model Law on Warehouse Receipts Project, including the objectives, scope and potential uses of the future Model Law and its accompanying Guide to Enactment.

Additionally, the Model Law Project was presented during the fifth panel ("Implementation of secured transactions reforms in the agricultural sector") of the fifth Conference on the International Coordination of Secured Transactions Reform, moderated by José Angelo Estrella Faria (UNCITRAL), held on 5 October 2022 at the seat of UNIDROIT in Rome. The presentation delivered an overview of the project and its progress and highlighted the *ex ante* coordination of the various partner organisations in the preparation of this instrument of international legislative guidance.

- *Development of the project*

After receiving two proposals concerning the harmonisation of rules in the field of bank insolvency—one from the Bank of Italy and one from the European Banking Institute (EBI)—the Governing Council at its 98th session (May 2019) agreed to recommend to the General Assembly to include a project on Bank Insolvency in the 2020-2022 Work Programme, with medium priority. At the Governing Council's 100th session in September 2021, the Council approved the proposed scope (subject to existing regulatory standards and underlining its focus on smaller banks), agreed to recommend assigning a high priority status to the project and authorised the Secretariat to establish a Working Group. The General Assembly approved the upgrade of the priority of the project to "high" during its 80th session in December 2021.

A Working Group was established, composed of 10 members selected for their expertise in the field of bank crisis management, insolvency law and deposit insurance. Furthermore, over 30 key institutions (international and regional organisations, central banks, supervisors, resolution authorities and deposit insurance corporations) from all over the world participate in the Working Group as Observers. The Working Group is chaired by Governing Council Member Stefania Bariatti (Professor, University of Milan). In addition to the Working Group, three Subgroups were set up to advance the work during the intersessional periods.

The Bank Insolvency Project is undertaken in cooperation with and with the support of the BIS Financial Stability Institute.

- *Working Group*

The second session of the Working Group on Bank Insolvency took place at the seat of UNIDROIT and via videoconference from 11 to 13 April 2022. The meeting was attended by nine Working Group Members and 31 Observers, including representatives from international and transnational organisations, central banks, deposit insurance corporations and resolution authorities, as well as members of the Financial Stability Institute (FSI) and the UNIDROIT Secretariat. The Working Group discussed all the intersessional work and developments since the previous session, covering the reports of the three Subgroups of the Working Group (namely, Subgroup 1 on Scope and definitions, Objectives, Institutional models, and Procedural and operational aspects; Subgroup 2 on Preparation, Grounds for opening liquidation proceedings, Tools, and Funding; and Subgroup 3 on Creditor hierarchy, Financial contracts, Banking groups, Cross-border aspects, and Safeguards).

From 17 to 19 October 2022, the Working Group on Bank Insolvency met for its third session. The meeting was hosted by the Single Resolution Board (SRB) in Brussels, and was attended in person and via videoconference by ten Working Group Members and 31 Observers. The Working Group commenced with an update on the intersessional work and developments since the second Working Group session, which included work across three Subgroups and a comprehensive stock-taking exercise to collect information on bank liquidation regimes worldwide. It then elaborated on the proposed format and target audience of the future instrument, the scope of special bank liquidation regimes and relevant definitions, objectives, effective institutional arrangements, procedural and organisational aspects of the liquidation process, preparatory actions and the grounds for commencing bank liquidation proceedings, tools and powers, funding, matters of creditor hierarchy, the treatment of financial contracts, specificities for banking groups, and issues relating to cross-border scenarios. The Working Group also addressed the organisation of future work, which included establishing a Drafting Committee, to be tasked with the preparation of a first draft of the Guide, based on the discussions and input collected so far.

6. **Legal Structure of Agricultural Enterprises**

Working Group Meetings

First session (23-25 February 2022)

Second session (2-4 November 2022)

Intersessional Meetings

16 June 2022, 22 September 2022, and 30 September 2022

[Legal Structure of Agricultural Enterprises project website](#)

- *Development of the project*

The project on Legal Structure of Agricultural Enterprises (LSAE) represents the third project in the tripartite partnership of UNIDROIT, the United Nations Food and Agriculture Organization (FAO) and the International Fund for Agriculture Development (IFAD). The prospective LSAE Guide is a natural follow-up from the Legal Guide on Contract Farming (finalised in 2015) and the Legal Guide on Agricultural Land Investment Contracts (finalised in 2020).

The LSAE project was proposed for inclusion in the 2020-2022 Work Programme by the Governing Council at its 98th session and was approved by the General Assembly at its 78th session. In December 2021, during the General Assembly's 80th session, the project received a high-priority status and a Working Group was set up.

The LSAE Working Group has been tasked with developing an international soft law (guidance) document covering collaborative legal structures that support small producers and agri-MSMEs to

do business with one another to increase efficiency, reduce undesirable distributional effects, access international markets and promote sustainable agricultural development. Three main categories of instruments are analysed: (i) contracts, including bundles of contracts and multiparty contracts; (ii) companies with or without legal personality; and (iii) cooperatives. The project also considers the challenges and new opportunities raised by digital technology, sustainability, and finance on the structure of agricultural enterprises.

- *Working Group*

The LSAE Working Group is chaired by Governing Council Member Justice Ricardo Lorenzetti and coordinated by Professor Fabrizio Cafaggi (Judge at the Council of State Italy and Professor at the University of Trento and LUISS). It is composed of nine members selected for their legal expertise in the fields of contract law, corporate law, commercial law, property law, and agricultural law, as well as for their experience in economics, finance, digitalisation, and sustainability. The Working Group also counts the participation of four experts from FAO and three experts from IFAD, representing not only their legal departments, but also other technical divisions, such as FAO's "Agrifood Economics Division" and "Food Systems and Food Safety Division", as well as IFAD's "Research and Impact Division" and "Inclusive Rural Finance, Markets and Value Chains Division". In addition, the Working Group includes a significant number of observers representing international and regional intergovernmental organisations, farmers' associations, non-governmental organisations, and the private sector.

The first session of the LSAE Working Group took place from 23 to 25 February 2022 at the seat of UNIDROIT in Rome and via videoconference. The session was attended by 40 participants, including FAO's Legal Counsel (Ms Donata Rugarabamu) and IFAD's General Counsel (Ms Katherine Meighan), who participated in person during the opening of the session to restate the importance of the tripartite partnership among FAO, IFAD and UNIDROIT.

The first session discussed the envisaged scope, objectives, and content of the guidance document. Among other issues, it addressed the impact of market structures on agricultural enterprises, the role of midstream agri-MSMEs in rural transformation, factors influencing the choice of corporate or contractual legal structures, and the use of multiparty contractual arrangements for collaboration in agri-food supply chains. The Working Group also discussed the impact of Sustainable Development Goals (SDGs), green finance, and digital technology on agricultural enterprises.

During the intersessional period, three meetings were organised. The first intersessional meeting, held 16 June 2022, collected empirical evidence on the use of the three categories of collaborative legal forms. The second meeting, held 22 September 2022, examined the differences among, and main challenges stemming from, the legal structure of agricultural cooperatives. The third meeting, held 30 September 2022, discussed how corporations operated as instruments of collaboration among producers and other actors along the agri-food supply chain, and considered the impact of digitalisation and finance on agricultural enterprises.

The second session of the LSAE Working Group took place from 2 to 4 November 2022 in Rome at the seat of UNIDROIT and via videoconference with 44 participants. After reviewing all of the intersessional work carried out since the first session, the Working Group considered a number of issues, including the refinement of the scope of the project, multiparty contracts, cooperatives and corporations, sustainability, and finance. The participants agreed to further work on adapting the structure of analysis proposed for multiparty contracts to the specificities of cooperatives and corporations. The organisation of future work was also discussed.

- *Presentations, seminars and conferences*

The LSAE project was presented at two international events held in Paraguay in the month of October 2022: (i) the XXI Congress of the International Academy of Comparative Law (IACL) and (ii) VIII Continental Congress of Cooperative Law organised by the Legislative Committee of the Regional Organization of the Americas of the International Cooperative Alliance (ICA).

7. Formulation of Principles of Reinsurance Contracts

Workshop on PRICL

Tenth session (13-15 July 2022)

[Principles of Reinsurance Contracts project website](#)

- *Development of the project*

The project for the development of Principles of Reinsurance Contract Law (PRICL Project), led by the Universities of Zurich, Frankfurt, and Vienna, and with participation from academics and practitioners from different jurisdictions, as well as UNIDROIT, was set up with the aim of formulating a “restatement” of existing global reinsurance law. After publication of the first part of the instrument in 2020, the UNIDROIT General Assembly endorsed the Governing Council’s decision to keep the project in the Work Programme in order to finalise it with additional chapters on back-to-back cover, termination, and limitation periods.

- *PRICL Tenth Workshop*

The UNIDROIT Secretariat participated in the tenth session of the PRICL Workshop, held from 13 to 15 July 2022 in Bad Homburg (Germany), to address the final draft on the period of reinsurance contracts, as well as a draft of the back-to-back clause, and the draft joint PRICL-UNIDROIT Note on PRICL and the Covid-19 pandemic. The meeting also discussed the way forward, as well as a marketing strategy for the instrument.

The eleventh session was slated to take place on 25-27 January 2023 at the seat of UNIDROIT in Rome.

8. Private Art Collections

- *Development of the project*

Consistent with this project’s inclusion in the Work Programme, the Secretariat identified the subject of orphan objects as one that required transnational legislative attention. Orphan objects can be defined as cultural objects which do not have an identified - or a fully identified - provenance. In cultural property law, the question is more one of history of ownership.

The need to work on a definition of orphan objects, the role of provenance, the legal status of orphan objects in art collections, and the definition of due diligence in the acquisition of orphan objects, were identified as issues that could fall within the scope of the project. Following discussions and consultations, a consensus was reached to propose giving a higher priority to the project, subject to the identification of sufficient resources, to the General Assembly at its 81st session in December 2022. The General Assembly agreed to increase the project’s priority level to medium.

The first meeting of an Exploratory Expert Group was held in Geneva and via videoconference on 12 September 2022 for a preliminary discussion on the selected topics and meetings of subgroups were proposed for the first trimester of 2023.

- *Presentations, seminars and conferences*

Despite the low priority level allocated to this subject, work has been carried out thanks to partners of the UNIDROIT Convention Academic Project (UCAP). UNIDROIT presented this project, *inter alia*, at the “Due Diligence, Digital Databases and Cultural Property Law and Policy” Conference organised by the Harry Radzyner School of Law at Reichman University in Herzliya, Israel in March 2022, as well as at the “Culture and Law” Conference organised by the International Academy of Comparative Law (IACL) and the *Centro Mexicano de Derecho Uniforme* in Mexico City, Mexico in April 2022.

H.E. Ambassador Cheiffou was accompanied by Farid Sanda, First Secretary at the Embassy of Niger to Italy. The visit was also an occasion to discuss how to strengthen

the relations between the Republic of Niger and UNIDROIT, as well as the benefits of other UNIDROIT instruments for her country.

- *Luxembourg Rail Protocol*

UNIDROIT has been designated Depository of the Luxembourg Protocol on matters specific to Railway Rolling Stock pursuant to Article XXXIV(1) of the Rail Protocol. On 22 March 2022, the Republic of South Africa signed the Luxembourg Rail Protocol, through H.E. Fikile Mbalula, Minister of Transport of South Africa. The signature of the treaty was recognised as a first step towards the country's planned ratification of the Protocol, for which an in-principle ministerial agreement was reached.

After signing the Rail Protocol in November 2021, the Government of Spain continued with the ratification process, which was concluded at the end of November 2022 with the signature by the Ministry of Foreign Affairs and submission for promulgation by the King. The Kingdom of Spain deposited its instrument of ratification on 20 January 2023.

Hana Hubáčková, Ambassador of the Czech Republic to Italy, Presidency-in-Office of the Council of the European Union, and H.E. Antonio Parenti, Head of the European Commission Representation in Italy, signed, on behalf of the European Union, the MAC Protocol at a ceremony held at the seat of UNIDROIT in Rome.

Preparatory Commission

Eleventh session (29-30 November 2022)

- *Preparatory Commission: Work of the Negotiating Team set up at the tenth Session of the Preparatory Commission*

Pursuant to the conferral of the mandate by the Rail Preparatory Commission for the Establishment of the International Registry for Railway Rolling Stock under the Luxembourg Protocol ("Preparatory Commission") at its tenth Session, the UNIDROIT Secretariat continued, throughout 2022, to provide support for, and participate in several remote plenary meetings of the Negotiating Team, which had been set up at that session to conduct negotiations in relation to a proposed change of ownership or control of the Registrar-designate Regulis S.A. The Negotiating Team was composed of the Co-Chairs of the Preparatory Commission, as well as representatives of OTIF, UNIDROIT and the Rail Working Group. Further, the UNIDROIT Secretariat participated in several in-person and remote workshops organised to advance the work of the Negotiating Team with a view to agreeing on all necessary adjustments to the existing Registry Agreements.

- *Preparatory Commission: Eleventh Session*

On 29-30 November 2022, OTIF and UNIDROIT jointly convened the eleventh session of the Preparatory Commission, which was held both in person at the seat of UNIDROIT in Rome and via videoconference, and was co-chaired by Peter Bloch (USA) and Antti Leinonen (Finland).

The session was attended by 20 State delegations and was opened by the Secretaries General of UNIDROIT and OTIF. The opening of the session also featured statements from H.E. Michèle Pranchère-Tomassini, Ambassador of Luxembourg to Italy, and H.E. Nosipho Nausca-Jean Jezile, Ambassador of South Africa to Italy.

Notably, after reviewing the Final Report of the Negotiating Team, the Preparatory Commission approved by consensus the change of control in the Registrar-designate Regulis S.A. from SITA BV to ISC Atlantic Services Inc, as well as the consequent amendments to the contracts regarding the operation of the Registry, and the assignment of the Master Service Agreement, Software Security Agreement, and Deed of Business Continuity from SITA Ireland to ERS.

The approval by the Preparatory Commission will enable the setting up of an operational Registry by the time of the entry into force of the Protocol, expected in 2023.

The Report of the Preparatory Commission session is available [here](#).

- *Development of the Model Rules for the Permanent Marking of Railway Rolling Stock*

On 4 and 5 May 2022, UNIDROIT, represented by Deputy Secretary-General Professor Anna Veneziano, participated in the fifth session of the United Nations Economic Commission for Europe (UNECE) Group of Experts on the Permanent Identification of Railway Rolling Stock (GE_PIRRS), which addressed the development of the Model Rules on the Permanent Marking of Railway Rolling Stock ("Model Rules") ensuring the implementation in practice of the Unique Rail Vehicle Identification System (URVIS) under the Luxembourg Rail Protocol.

From 1 to 3 June 2022, UNIDROIT also participated in the informal drafting group meeting set up at the fifth session of GE_PIRRS with the aim of implementing the decisions taken at that session and finalising the draft Model Rules and the Terms of Reference for the Revision Committee.

Professor Veneziano also participated in the sixth session of GE_PIRRS on 29 and 30 August 2022 which approved the final draft of the Model Rules and agreed that the updated Model Rules be submitted to the Working Party on Rail Transport for adoption.

The Model Rules were approved by the Inland Transport Committee in November 2022 and were submitted to the Working Party for final approval (scheduled for February 2023).

- *Ratification Task Force actions and promotional activities*

Throughout 2022, the Secretariat continued to actively cooperate with OTIF, the Co-Chairs of the Preparatory Commission, and the Rail Working Group in preparatory work for the establishment of the Supervisory Authority for the operation of the International Registry, the International Registry itself, and in the organisation of promotional activities. The Secretariat also continued to cooperate with other global and regional organisations in order to maximise efforts towards dissemination of information on the advantages of implementing the Luxembourg Rail Protocol. Promotional events included presentations at:

- the Asian Infrastructure Investment Bank (AIIB) Legal Information Series (10 January 2022);
- the UNIDROIT International Summer School, where the Protocol was discussed as a tool for sustainable economic development for Africa (11 July 2022);

In addition, the Rail Working Group continued to further the promotion of the Protocol, including by the organisation of, and participation in, an event hosted by the Luxembourg Ambassador in Berlin in October 2022.

The UNIDROIT Secretariat also continued to actively liaise with potential contracting States, to assist the Rail Working Group in drafting, or directly drafting, support documentation for interested governments, and to meet with governmental representatives of several States, including China, India, Italy, Mauritius, Mongolia, and the Philippines.

Finally, at the end of 2022 UNIDROIT was informed of the finalisation of the process of ratification of the Protocol by Spain. This milestone event would fulfil one of the conditions for the entry into force of the Protocol (the other being the certification by OTIF that the International Registry is operational (see above, on page 28).

Throughout 2022, the Preparatory Commission continued to make progress regarding its three key responsibilities: (i) appointment of a Supervisory Authority, (ii) selection of a Registrar to operate the MAC Protocol International Registry, and (iii) preparation of a first edition of the International Registry Regulations.

Regarding the appointment of the Supervisory Authority, at its 101st session in June 2022, the Governing Council decided to establish an *ad hoc* Committee to consider the public international law issues associated with either (a) UNIDROIT undertaking the role of Supervisory Authority, or (b) the creation of a new international entity to undertake the role, with UNIDROIT as its Secretariat. The *ad hoc* Committee began its work in November 2022 and will report back to the Governing Council at its 102nd session in May 2023.

Regarding the selection of a Registrar, the Request for Proposals for the establishment of the future International Registry for MAC Equipment was published on 21 March and closed on 1 September 2022. The Secretariat also hosted a Solicitation Conference on 1 April 2022 relating to the Request for Proposals. An Evaluation Committee assessed the bids that were submitted and reported back to the Preparatory Commission at its fifth session.

Regarding the preparation of the first edition of the International Registry Regulations, a first draft of the Regulations was provided as part of the Request for Proposals published in June 2022.

B. PROMOTION OF INSTRUMENTS ADOPTED BY UNIDROIT

Within the limits imposed by the ongoing Covid-19 pandemic, the Secretariat continued to do its utmost in 2022 to promote the UNIDROIT Conventions and other instruments, notably presenting them at conferences and publishing related articles.

Annexe II provides an overview of the instruments drawn up, as well as the status of implementation of Conventions prepared by UNIDROIT and approved at diplomatic conferences convened by UNIDROIT Member States. For the implementation of instruments based on work conducted within UNIDROIT, see Annexe III.

1. Cape Town Convention and its Protocols

- *Presentations, seminars and conferences on the Cape Town system and Aircraft Protocol*

In 2022 the Cape Town Convention and its Protocols were the focus of a number of conferences, seminars and lectures around the world. With particular regard to the activities in which UNIDROIT was directly involved, the following are representative examples.

On 10 January 2022, the Cape Town Convention and its Protocols were presented at an event of the Legal Information and Management Series, organised by the Legal Department of the Asian Infrastructure Development Bank (AIIB). This event featured a presentation by UNIDROIT entitled: “The Cape Town Convention and its Protocols – Using international secured transactions law to increase certainty in high-value asset-based financing”.

On 17 June 2022, the Secretary-General participated in the Ninth Air Law Conference organised by the L.U.I.S.S. University in a panel moderated by Ms Laura Pierallini, where he reported on the resilience of the Cape Town Convention and its Aircraft Protocol during the Covid-19 pandemics.

On 8 July 2022, the Cape Town Convention and its Aircraft Protocol were presented in the framework of the UNIDROIT International Summer School, with participation of the Secretary-General, the Deputy Secretary-General and Professor Jeffrey Wool.

On 4 and 5 October 2022, the Joint Network for Coordinating and Supporting Secured Transactions Reforms held the fifth International Coordination of Secured Transactions Reform Conference which was hosted by UNIDROIT in Rome in its capacity as the 2022 Chair of the Joint Network. Over the two days, 40 panellists and 70 experts, participating both in person and virtually, discussed a variety of issues associated with the coordination of secured transactions reform, including: the coordination of new instruments with the existing legal secured transactions framework; coordination among legislative organisations, private sector associations, and regulatory agencies; financial inclusion; and access to credit in the agricultural sector.

On 14 December 2022, UNIDROIT participated remotely in a workshop on International Best Practice on Security Interest Registration. Organised as a joint initiative between the Government of the Socialist Republic of Viet Nam and the International Finance Corporation (IFC) and supported by the Swiss Cooperation Office in Viet Nam, the event brought together international experts and Vietnamese stakeholders to share their experiences in secured transactions reform. During the event, UNIDROIT Senior Legal Officer William Brydie-Watson presented on UNIDROIT’s work on the Guide on Best Practices for Electronic Collateral Registries (a joint initiative under the Cape Town Convention Academic Project), as well as the design and operation of registries under the Cape Town Convention system and the future UNIDROIT Model Law on Factoring. Vietnamese stakeholders demonstrated strong interest in the Mining, Agriculture and Construction (MAC) Protocol to the Cape Town Convention, with a specific focus on how the Vietnamese collateral registry could serve as an entry point to the future International Registry for MAC equipment, in order to improve access to finance for Vietnamese mining, agriculture and construction companies.

- *Participation in ministerial meetings on the ratification of the Cape Town Convention and Aircraft Protocol*

Throughout 2022, UNIDROIT Secretary-General and Deputy Secretary-General participated in several meetings of an inter-ministerial working group coordinated by the Italian Ministry of Foreign Affairs to provide expertise on the ratification of the Cape Town Convention and its Aircraft Protocol.

On 15 March 2022, Deputy Secretary-General Anna Veneziano further took part in a parliamentary audition concerning the economic and legal implications of the ratification of the Convention and the Aircraft Protocol by Italy.

- *Protocol to the Cape Town Convention on Matters specific to Space Assets (Space Protocol)*

Throughout 2022, the UNIDROIT Secretariat delivered several academic lectures on the theme of the Space Protocol, notably at:

Likewise, the Space Protocol was highlighted as part of UNIDROIT's statement at the 65th session of the UNOOSA General Assembly in Vienna, Austria (1-10 June 2022).

Notably, on 14 June 2022, UNIDROIT signed a Memorandum of Understanding with the Space Court Foundation (SCF) to strengthen cooperation between the institutions in furthering their respective goals for peaceful dispute resolution through private international law, with an emphasis on promoting research in space law, with a particular focus on the financing of space activities.

- *Cape Town Convention Academic Project*

In 2022, the Cape Town Convention Academic Project (CTCAP) created the Cape Town Convention (CTC) international moot court programme (CTC moot court) whose purpose is to familiarise students and judges with the CTC in the context of complex hypothetical fact patterns and to provide students with educational exercises involving these instruments in a simulated judicial setting. The hypothetical and related materials will be modified on a jurisdictional basis, depending on the venue of the CTC moot court. The major change will be that such a venue will be the assumed country where the aircraft is registered under the Chicago Convention of 1944. The program will work around the world with local universities. The CTC moot court will be heard by sitting judges from their respective jurisdictions. Alternatively, the fact pattern may be used as the basis of discussion and debate among judges and/or students.

The sixth Workshop on the Best Practices in the Field of Electronic Registry Design and Operation (BPER) Project was organised by the CTCAP at the Cavonius Centre, Gonville & Caius College, University of Cambridge (and remotely) on 12 September 2022 and it involved 35 participants. This project continued to be supported by the UNIDROIT Foundation and Aviareto. Following the publication of a Guide on Best Practices for Electronic Collateral Registries, the BPER Project is presently working towards the preparation of a Guide on Best Practices for Electronic Business Registries. The sixth Workshop featured a review of a preliminary structure for the Guide on Electronic Business Registries, as well as discussions on questions of scope, differences between business registries and collateral registries, and the structure of the guide on business registries. Furthermore, the Workshop also examined Critical Performance Factors for business registries, received input from international organisations and practitioners, and drew comparisons with other international instruments in this area. The Workshop also included input from various national and international organisations involved in the design and operation of companies' registries.

In addition, the eleventh annual CTCAP Conference took place at Robinson College at the University of Cambridge (and remotely) on 13 and 14 September 2022. The Conference was organised by the CTCAP under the auspices of the Centre for Corporate and Commercial Law (3CL). The focus was on Public International Law and the Cape Town Convention. The first day featured a Keynote Address by Professor Philippa Webb (King's College London), which was followed by a presentation on the "Application of public international law concepts to actions taken in Russia which have an impact on CTC obligations", and a discussion on "Public and private aviation treaties: CTC and the Chicago Convention". Day 2 of the Conference featured presentations on "Sanctions and the CTC: the relationship between sanctions and treaty obligations affected by sanctions", on "Private actor recourse against states in respect of treaty violations", remarks on "State-to-state diplomatic practice on treaty compliance and impact on CTC obligations", and a presentation on "The internationality of property interests: what can we learn in the CTC context from the intellectual property experience?". The Conference was concluded by a presentation on "Public international law and institutional items: case study on supervisory authority role in CTC".

2. *International Protection of Cultural Property*

a. **1995 UNIDROIT Convention on Stolen or Illegally exported Cultural Objects**

- *Status*

The 1995 UNIDROIT Convention entered into force in 1998. As at 31 December 2022, the UNIDROIT Convention on Stolen or Illegally Exported Cultural Objects had 54 Contracting States (cf. Annexe II). Madagascar acceded on 6 December 2021 (with entry into force 1 June 2022), Mexico acceded on 11 May 2022 (with entry into force on 1 November 2022), and Morocco acceded on 3 August 2022 (with entry into force on 1 February 2023).

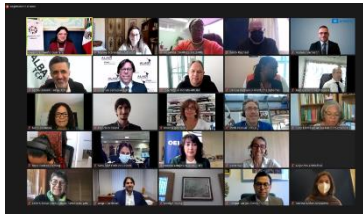

b. **Institutional cooperation**

- *The United Nations Educational, Scientific and Cultural Organization (UNESCO)*

On 28 January 2022, UNIDROIT was invited to attend the Technical Expert Consultation on the preliminary draft capacity building program related to UNESCO Operational Strategy for Priority Africa Flagship programme 3: "Fostering cultural heritage and capacity development" and its objective 2 "Supporting African Member States in the fight against the illicit trafficking of cultural property within the framework of the 1970 Convention; and in facilitating the return and restitution of cultural property in the framework of the Intergovernmental Committee for

Promoting the Return of Cultural Property to its Countries of Origin or its Restitution in case of illicit Appropriation (ICPRCP), as well as the promotion of museums.

UNIDROIT was also invited to two regional consultation events on cultural policies and sustainable development hosted by UNESCO under the presidencies of Senegal and Mexico, respectively, on 30 January and 1 February, for the African region, and on 14 and 15 February 2022, for Latin America and the Caribbean, ahead of the Mondiacult 2022 conference (September 2022). Both occasions were an opportunity to recall the role of UNIDROIT instruments in matters concerning the international protection of cultural objects, which not only allow for an effective fight against abuse committed in the framework of international trade of cultural objects, but also contribute to increasing legal certainty related to the circulation and trade of cultural objects worldwide.

From 28 to 30 September 2022, UNIDROIT Secretary-General Ignacio Tirado and Principal Legal Officer and Treaty Depository Marina Schneider attended the UNESCO World Conference on Cultural Policies and Sustainable Development in Mexico City, which brought together almost 2600 participants, 150 State delegations, 135 Ministers of Culture, 32 intergovernmental organisations,

83 non-governmental organisations, and nine UN agencies. Professor Tirado intervened as observer in the Ministerial Thematic Session II on “Heritage and cultural diversity in crisis”, and Principal Legal Officer and Treaty Depository Schneider moderated the Ministerial Thematic Session III on the same subject.

The Final Declaration was adopted by acclamation and, among other, emphasised the commitment of States to intensify the fight against illicit trafficking in cultural property and called for an open and inclusive international dialogue for the return and restitution of cultural property to countries of origin. UNIDROIT featured twice in the Final Declaration. At that time, Mexico had recently acceded to the 1995 UNIDROIT Convention.

On 10 and 11 November 2022, UNIDROIT participated in the first National Consultation for the Prevention of Crimes and Violations against Cultural Heritage initiated by the Office of the President of Mongolia and organised by the Ministry of Culture, the Department of Culture and Arts Authority of the Implementing Agency of the Government of Mongolia and the Mongolian National Commission for UNESCO, in collaboration with the UNESCO Beijing Office. The accession to the 1995 UNIDROIT Convention was largely discussed. This consultation followed the visit of a delegation of Mongolia to UNIDROIT on 2 May 2022 led by the Vice-Minister of Justice and Home Affairs and comprising other representatives of the Ministry, as well as members of Parliament, and the Director of the National Legal Institute of Mongolia.

- *The International Centre for the Study of the Preservation and Restoration of Cultural Property (ICCROM)*

UNIDROIT attended a Conference organised by ICCROM Sharjah and the Ministry of Culture of Saudi Arabia for 52 high-level Saudi participants and invitees from the Gulf Cooperation Council (GCC), including Yemen, Oman, Qatar, and the United Arab Emirates, on 9 May 2022. It gave an online course on its instruments on international protection of cultural property.

- *Economic Community of West African States (ECOWAS)*

UNIDROIT pursued its cooperation with ECOWAS and attended some technical meetings to accompany States in the process of accession to the 1995 Convention.

c. The 1995 UNIDROIT Convention Academic Project

The Academic Project of the 1995 UNIDROIT Convention (UCAP) aims at increasing awareness and knowledge of the 1995 UNIDROIT Convention and at promoting and linking relevant (inter)national research carried out by entities and universities teaching in the field of cultural heritage law.

In the framework of UCAP, starting in January 2022 and slated to end in June 2023, UNIDROIT is partnering with the Art Law Centre of the University of Geneva in the Certificate of Advanced Studies (CAS) in Geneva. This programme is aimed at providing a high level of knowledge and understanding of the substantive themes of international cultural heritage law through a modern and dynamic problem-based learning method. A specific presentation on UNIDROIT instruments took place on 10 September 2022.

In 2022, three new individual partners joined UCAP, one of which contributed with a “technical report on the model clauses for the legal purchase and sale of cultural assets” posted on the UCAP website.

On 11 March 2022, the Deputy Secretary-General participated in a seminar organised by the Department of Law of Roma Tre University on "Transnational Issues in the Adaptation of Long-Term Contracts to New Circumstances", where the role of the UPICC as a model for national legislation and for the drafting of contractual clauses was discussed.

On 28 and 29 March 2022, UNIDROIT Legal Officer Philine Wehling delivered a lecture on "UNIDROIT & the UNIDROIT Principles of International Commercial Contracts" to postgraduate students of the International Training Centre of the International Labour Organization (ITC-ILO) in Turin. The two-day lecture also introduced the students to UNIDROIT's mandate and working methods, to then focus on the UNIDROIT Principles of International Commercial Contracts.

Subsequently, the group explored the influence of the UNIDROIT Principles on other instruments developed under the auspices of UNIDROIT, such as the UNIDROIT/FAO/IFAD Legal Guide on Contract Farming and the UNIDROIT/IFAD Legal Guide on Agricultural Land Investment Contracts. The lecture was part of the Master of Laws in International Trade Law programme, which is co-organised by the ITC-ILO, the University of Turin, and the University Institute of European Studies, in collaboration with the Turin School of Development.

On 2 May 2022, Ms Wehling delivered a presentation on the UPICC to a delegation from Mongolia that visited UNIDROIT, led by the Vice-Minister of Justice and Home Affairs and comprising other representatives of the Ministry, as well as members of Parliament, and the Director of the National Legal Institute of Mongolia. B. UNIDROIT ON INTERNET AND SOCIAL MEDIA IN 2022

UNIDROIT website - <http://www.unidroit.org>

The UNIDROIT website was first created in the 1990s and then modernised in 2014 and 2021, becoming more user-friendly. In 2022, the creation of a new page with the correspondents network was decided. The new website was specially designed to be consulted via mobile device and tablets but computers remains the principal access to it.

The website is monitored with Google Analytics. Most users of the UNIDROIT website in 2022 were in the United States (more than 8%), Italy (8%), China and France (almost 6%), and the United Kingdom (5.5%).

The pages most consulted were those relating to the research and internships and the UNIDROIT Principles 2016 and the Model Clauses, followed by those on the Cape Town Convention and its Protocols, the project on Digital Assets, and the 1995 Cultural Property Convention.

UNIDROIT on Social Media

UNIDROIT launched its social media programme during the Institute's 90th anniversary celebrations in April 2016. The purpose of the programme was to promote the Institute's work to a wider audience in an innovative, efficient, and cost-effective manner. UNIDROIT currently maintains accounts on LinkedIn, Facebook, Twitter, and YouTube.

The three key performance indicators for the Institute's social media programme are: (i) number of followers; (ii) the "reach" (the total number of people that see UNIDROIT social media content); and (iii) the number of referrals to the UNIDROIT website. Since its launch, the UNIDROIT's social media programme has exceeded expectations on all three key performance indicators. At the end of 2022, the Institute had more than 25,000 followers on LinkedIn, 5,400 followers on Facebook, and 2,000 followers on Twitter. As for the Institute's "reach" across social media, over the past twelve months UNIDROIT content was displayed on news feeds more than 702,398 times on LinkedIn, around 80,537 times on Twitter, and delivered 27,587 times to people on Facebook.

UNIDROIT participates in a Social Media roundtable organised by the US Mission to the UN Agencies in Rome, which brings together the social media officers of the largest Rome-based international agencies to share knowledge and coordinate promotional campaigns. This has allowed UNIDROIT to benefit from the expertise and experience of larger organisations, which have entire teams dedicated to digital communication.

C. DEPOSITORY LIBRARIES FOR UNIDROIT DOCUMENTATION

Before the age of websites, UNIDROIT asked Member States to appoint specific libraries or other official institutions to act as Depository Libraries for UNIDROIT documentation and to indicate what materials they would be interested in storing (only documents, or also publications, such as the Uniform Law Review, etc.). With the adoption of the policy to post all documentation on the website, the interest in Depository Libraries waned, but some States are still keen to maintain them. The list of Member States on the website indicates also if Depository Libraries have been designated.

At the end of December 2022, 54 libraries in 48 Member States have been designated depositories for UNIDROIT documentation. For a list of Depository Libraries see Annexe IV.

D. UNIDROIT LIBRARY

Library cooperation and networking

In 2022 the UNIDROIT Library continued its cooperation strategy with other Roman and foreign libraries. In particular, first steps were taken to create a future collaboration between the UNIDROIT Library and the University Library of Regensburg (Germany).

Digitisation

On the occasion of the Governing Council's 97th session, Rome, 2-4 May 2018, it was agreed to proceed with the proposed in-house digitisation project, as an attractive opportunity to make the collection of a large library, such as UNIDROIT's, accessible in digital form. In 2022, therefore, work progressed on the digitisation project of the Library. Special attention was paid to the digitisation of the collection on comparative law and unification of laws, and to the Chiomenti collection, in order to preserve some of the Library's most valuable historical collections. Thanks to the very fruitful training project with the "Cooperazione HELP" (Rome) Mr Carlo and Mr Riccardo della Fazia collaborated on the digitisation of the library's electronic collection which was increased by a total of 580 digitised titles in 2022.

Scialoja collection

Furthermore, the Library continued with the cataloguing and digitising of the very precious Scialoja collection of about 700 publications, mostly in the form of pamphlets, excerpts from various Italian reviews (in particular law reviews), and by collective works, dating between the last decades of the nineteenth century and early decades of the twentieth century, which was donated to the Library in June 2021 by Professor Achille de Nitto. The publications belonged to the Vittorio Scialoja Library at the Institute of Roman Law.

On the occasion of the Institute's event "Ricordando Gino Gorla", which was organised by the President of UNIDROIT on 19 October 2022, Professor Maurizio Lupoi donated numerous volumes from Professor Gorla's collection, situated in his law studio in Rome. The books will be transferred to the UNIDROIT Library during the first months of 2023. They will be catalogued and afterwards integrated and shelved in the Library's "Gorla collection" room. The Institute expresses its gratitude for the generous and precious donation which is very enriching for the Library.

Update of Law Reviews List

In 2022, work continued on the upgrade of the Library's list of law reviews. The links to those publications that are also available online were added to the relevant bibliographic data sheet in the online catalogue. In particular, a large number of articles available in the databases that the Library is subscribed to, were added to the bibliographical information of the Library's online catalogue, and can now be easily consulted by readers. With the team of agents from "Kluwer International" (Netherlands), evaluations are ongoing for the acquisitions of so-called "e-book packages".

Following a very productive meeting and an individual training with a group of Kluwer agents in October 2022 in Rome, some of the Library's loose-leaf collections, which are less user friendly, were substituted by their respective electronic versions, which can easily be consulted by the Library's users and now offer easy access to legal materials for the Library's guests from all over the world.

Lectures

Taking advantage of the presence of distinguished guests at UNIDROIT, starting as of January 2019, the Secretariat began to organise a series of lectures and presentations on topics related to the guests' areas of research, attended by members of the UNIDROIT Secretariat and current guests in the Library, as well as interested external experts expressly invited to participate. In September 2022 Ms Zeynep Kahveci gave a lecture on "Data Ownership and Data Transfers", in November 2022 Mr Edoardo Ruzzi and Mr Giulio Santoni talked about "Data transactions". The presentations were both followed by Q&A sessions moderated by the Secretary-General, Professor Ignacio Tirado.

Acquisitions, donations, exchanges

In 2022, the Library's holdings increased by 644 titles, of which 379 were purchased outright and 139 were obtained on an exchange basis, while 126 further titles were received as gifts, for a total value of €8,420.00. The expansion of the Library's holdings has been hampered by steady increases in the price of publications and a chronic lack of resources. In 2022, as in previous years, the Library received donations in kind from the Max-Planck-Institute of Foreign Private and Private International Law in Hamburg.

Strengthening the UNIDROIT Library Project Plan

Thanks to the very generous donation of the Dutch Foundation LARGESSE to the UNIDROIT Foundation, it was possible to draft a project plan to strengthen the UNIDROIT Library, not only with regard to acquisition policy and to upgrading the collection, but also to accelerate the Library's digitisation project and for the general modernisation of the Library's premises, including new technical equipment and renovation of some of the Institute's premises to create additional working space for researchers and interns directly involved in UNIDROIT's activities.

Visitors

The Library continued to attract readers from all over the world. In 2022, the Library welcomed 112 visitors from 35 different countries.

E. PUBLICATIONS

The Uniform Law Review

The *Uniform Law Review*, published by Oxford University Press (OUP), is available by subscription in its paper version and online, or in both modalities. Subscription data indicate a trend of a steady decrease in printed subscriptions. Conversely, online subscriptions have increased, the greatest increase being to collection subscriptions, i.e. subscriptions through the OUP collection of journals available online. In addition, the OUP has a special arrangement for developing countries, which offers subscriptions to journals online at a low rate, at times cost-free. One of the consequences of the Covid-19 pandemic was that publishers such as OUP have found that they have to introduce a new online method for submission and treatment of articles, including the peer review system, quicker than they had expected to. The OUP system is the ScholarOne submission system, which will also be applied to the *Uniform Law Review* from 2023 onward.

Among the main features of the ScholarOne system are author submission via an internet site rather than by e-mail, online peer reviews, automated delivery and alerting to production, and automatic e-mail alerting of due dates for all users (including the Editorial Board).

It is estimated that the system will be in place by early or mid-2023, after a period of training provided by OUP, which will also assist in customising the procedures for the *Uniform Law Review*.

Monographs

- *Official Commentaries on the Cape Town Convention on International Interests in Mobile Equipment and the Protocol thereto on Matters Specific to Aircraft Equipment*

The fifth edition of the Official Commentary on the Cape Town Convention on International Interests in Mobile Equipment and Protocol thereto on Matters Specific to Aircraft Equipment by Professor Sir Roy Goode was published in May 2022 and formally launched during the 101st session of the Governing Council in June 2022.

The Official Commentary consists of narrative text, annotations to the two instruments containing 75 illustrative examples and several appendices, together amounting to over 800 pages. It provides a comprehensive and authoritative guide which is indispensable for all manufacturers, financiers, lessors and their legal advisors involved in transactions relating to aircraft equipment.

An electronic version, with internal and external links, available for the use of subscribers to the International Registry, was prepared following an agreement between the Institute and Aviareto, the registrar of the Cape Town Convention and Aircraft Protocol.

- *ELI/UNIDROIT Model European Rules of Civil Procedure*

The English version of the Model Rules was published by Oxford University Press in August 2021 as an open-access publication within the ELI Instruments Series. The French version of the Model Rules was finalised at the end of 2022 and is expected to be published in 2023.

In June 2022, the Spanish version of the black-letter rules of the ELI/UNIDROIT Model European Rules of Civil Procedure was published. The Spanish version of the Model Rules was prepared by Professor Marco de Benito and Professor Fernando Gascón Inchausti. Work continues on the translation of the integral version of the Model European Rules of Civil Procedure into Chinese, Farsi, German, Hungarian, Portuguese, Russian, Spanish, and Ukrainian. The black-letter rules only are being translated into Italian.

- *UNIDROIT/IFAD Legal Guide on Agricultural Land Investment Contracts*

In 2021 UNIDROIT and the International Fund for Agricultural Development (IFAD) launched the Legal Guide on Agricultural Land Investment Contracts that the two organisations had produced jointly. The Guide provides guidance on the entire contractual relationship between landowners and investors, from the contractual negotiation stage to the conclusion and return of tenure rights.

At the close of 2022, the French version of the *Legal Guide on Agricultural Land Investment Contracts* was finalised and is expected to be published in 2023.

- *ALI/UNIDROIT Principles of Transnational Civil Procedure*

Agreements have been concluded for translations into Albanian, Arabic, Chinese, Croatian, Farsi, Greek, Japanese, Russian, Slovak, Spanish, Turkish, and Ukrainian.

F. UNIDROIT FOUNDATION

Throughout 2022, the UNIDROIT Foundation (<http://www.unidroitfoundation.org>) continued to support both the substantive and non-legislative work of UNIDROIT.

The Foundation's two active projects, the Best Practices in the Field of Electronic Registry Design and Operation (BPER) Project and the Economic Assessment of International Commercial Law Reform Project, continued to build momentum in 2022.

On 12 September 2022, the sixth Workshop on the BPER Project was organised by the Cape Town Convention Academic Project at the Cavonius Centre, Gonville & Caius College, University of Cambridge (and remotely).

The Economic Assessment of International Commercial Law Reform Project met twice over the course of 2022, with the seventh meeting held on 10 March at the seat of UNIDROIT and via videoconference, and the eighth meeting held on 15 September at the University of Cambridge and via videoconference. The latter meeting was attended by 20 experts, including representatives of the OECD and the European Commission, who presented their work relating to regulatory impact assessments. The discussion of the Project Group mostly focused on key aspects of *ex ante* economic assessments and the development of a draft Guide on the Economic Assessment of International Commercial Law Reform.

In its work towards further advancing the legislative and non-legislative activities of UNIDROIT, the Foundation sponsored a number of scholarships as part of the UNIDROIT Scholarship, Internship and Research Programme over the course of 2022. Moreover, with the support of the International Law Institute, an Essay Competition was organised on UNIDROIT Instruments and Sustainable Development. Participants were invited to author an essay in English examining how UNIDROIT instruments can contribute towards sustainable development, and help countries achieve their targets for the Sustainable Development Goals (SDGs) of the United Nations. The focus of the essay was to be relevant current or future UNIDROIT instrument(s). The Foundation has also continued to support the Institute's social media platforms in order to promote UNIDROIT and its work. Additionally, the UNIDROIT Foundation continued to maintain the UNIDROIT Alumni Association.

Furthermore in 2022, the UNIDROIT Foundation concluded an agreement with the Dutch Foundation LARGESSE, which provided a generous donation for a comprehensive project to renovate and expand UNIDROIT's Library.

The Board of Governors for the UNIDROIT Foundation met in 2022 for its 27th session on 7 June 2022 at the seat of UNIDROIT in Rome and via videoconference. A follow-up meeting was held on 8 July 2022, during which the Board received a detailed update on the activities of UNIDROIT.
